

NOV 23 1993

Mr. H.E. McLane
H.E. McLane Inc.
7210 Red Road
Suite 200
Miami, Florida 33143-5321

Dear Mr. McLane:

Subject: Label Amendment Homeowner Label Only
EPA Registration Number 2491-333
Your Submission dated May 11, 1993

The homeowner labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable.

Please note that the homeowner label was the only label submitted and therefore reviewed. There should be no changes made to the non-homeowner since the last accepted stamped label dated March 27, 1991. However, this non-homeowner labeling must comply with the Worker Protection Standard.

A stamped copy of the accepted label is enclosed for your records. Please submit three (3) copies of final printed labeling.

Sincerely yours,

Joanne L. Miller
Product Manager (22)

GREEN TURF®

LAWN FOOD with WEED CONTROL 25-3-5

25 - Nitrogen: Essential for plant growth and a thick green lawn. **3 - Phosphorus:** To promote root growth and grass multiplication. **5 - Potassium:** To help grass resist the elements and stay strong.

WEED & FEED Lawn Fertilizer 25-3-5

KILLS: Dandelion, Chickweed, Knotweed, Plantain, Henbit, Spurge and many other broadleaf weeds, some of which are listed on the back panel.

Coverage: 5,000 sq.ft.

WEED & FEED LAWN FERTILIZER 25-3-5

ACTIVE INGREDIENTS:

* Dimethylamine Salt of 2,4-Dichlorophenoxyacetic acid - - - 0.313%

** Dimethylamine Salt of 2-(2-Methyl-4-chlorophenoxy) propionic Acid - - - 0.314%

*** Dimethylamine Salt of 2-(2,4-Dichlorophenoxy) propionic Acid - - - 0.310%

INERT INGREDIENTS: - - - 99.063%

Total 100.000%

Equivalent to: 0.26% of 2,4-Dichlorophenoxyacetic Acid

0.26% of 2-(2-Methyl-4-Chlorophenoxy) propionic Acid

0.26% of 2-(2,4-Dichlorophenoxy) propionic Acid

Trade name is a Reg. TM of Riverdale Chemical Company

EPA REG. NO. 2491-333

EPA EST. NO. (k)2491-WI-1 (s)37105-FL-1

First letter of run code denotes location of manufacturing plant.

KEEP OUT OF REACH OF CHILDREN CAUTION

IF SWALLOWED: Get Medical Attention. **IF ON SKIN:** Wash Skin With Soap And Water. **IF IN EYES:** Flush Eyes With Water For 15 Minutes And Get Medical Attention.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid inhalation of dust and contact with eyes, skin or clothing. When using this product, wear long pants, long-sleeved shirt, socks and shoes. After using this product, remove clothing and launder separately before reuse, and promptly and thoroughly wash hands and exposed skin with soap and water. Do not allow people (other than applicator) or pets on treatment area during application. Do not enter treatment areas until dust has settled. Do not contaminate feed or foodstuffs.

ENVIRONMENTAL HAZARDS

This product is toxic to aquatic invertebrates. Do not contaminate water when disposing of equipment washwaters. For terrestrial use, do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not apply when conditions favor drift from target areas to flowers and ornamentals, shrubs, trees, or other desirable plants. Avoid application in or near trees, shrubs and plants in areas where their roots may extend and in locations where the chemical may be washed or moved into contact with their roots. Do not feed treated grass clippings to livestock.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. **STORAGE:** Store in original container and keep any bags containing unused product in an area inaccessible to children and domestic animals. Do not store near food or feedstuff. To prevent cross contamination, do not store near other fertilizers, or near herbicides, insecticides, fungicide, or seeds.

PRODUCT DISPOSAL: To dispose of bags which contain unused product, securely wrap bag in several layers of newspaper and discard in trash. **CONTAINER DISPOSAL:** Do not re-use empty bag. Fold empty bag and discard in trash.

OUR ENVIRONMENT:

This product provides phosphorus, potassium plus time-released nitrogen which encourages grass to fill in bare spots weeds leave behind. Contains sulfur which helps maintain dark green color and encourages plant and root growth.

Grass clippings and yard waste are approximately 20% of the volume in our nation's landfills. To do your part to reduce this amount, leave grass clippings on your lawn. Frequent mowing height and frequency will produce smaller grass clippings that will decompose more readily so nutrients will go back into your lawn. Besides increasing property values, did you know a well maintained lawn provides the following benefits to your home and environment.

A 50 foot X 50 foot lawn produces enough oxygen for a family of four.

Controls erosion - Reduces glare

Traps dust, smoke particles and other pollutants

Purifies water - Reduces noise

Improves soil condition - Modifies temperature

Avoid getting the product on concrete walks or drives, swimming pools, patios, stucco or asbestos siding, as the composition of certain fertilizer elements can cause permanent staining.

NOV 23 1993

2491 - 333

WILL CONTROL THESE WEEDS

Black Medic	Dandelion	Mallow	Purslane	Stitchwort
Buckhorn	Dock	Morningglory	Ragweed	White Clover
Burdock	English Daisy	Pigweed	Red Clover	Wild Carrot
Chicory	Ground Ivy	Plantain	Red Sorrel	Wild Garlic
Chickweed	Heal all	Poison Ivy	Speedwell	Wild Lettuce
Clover	Lambsquarter	Poison Oak	Spurge	Wild onion

and other similar broadleaf weeds.

Use on following established lawn grass types: Bahiagrass, Bermudagrass, Bluegrass, Centipedegrass, Fescue, Ryegrass, St. Augustinegrass and Zoysia. DO NOT use on Dichondra, and Carpetgrass lawns.

When applying to southern grasses, temporary yellowing may occur under conditions of high temperature, inadequate moisture and/or high humidity. To avoid this discoloration, apply at 50% rate. This rate may cause weed control to be unsatisfactory. Apply when weeds are actively growing as the weed killer needs to be absorbed into the plant through the weed leaves. Make sure the lawn is wet by dew, rainfall or watering so granules stick to the weed leaves. Do not disturb the lawn (by irrigation, mowing or similar activity) for 48 hours after application.

If the weed problem is severe, a reapplication 30 days after the initial treatment may be necessary. This is also advisable for hard to kill weeds or when the weeds are not actively growing.

Avoid contact with desirable flowers, shrubs, ornamentals and other broadleaf plantings. DO NOT apply to freshly seeded or sodded lawns until after three mowings. Do not reseed treated lawns until after three mowings after application. Apply with a mechanical lawn spreader. DO NOT hand apply.

The maximum rate to turf is 0.41 pounds of 2,4-D acid equivalent per acre per application per site. The maximum number of broadcast applications per treatment site is 2 per year.

APPLICATION INFORMATION:

BROADCAST SPREADER SETTINGS

For best results apply in a circular path starting on the outside and working toward the center. A little overlap of product will ensure complete coverage. Apply the contents of this bag to 5,000 sq.ft.

DROP SPREADER SETTINGS

First apply 2 border strips along the edge of each end of the lawn. The apply product along the length of the lawn, overlapping slightly and shutting off the spreader before turning as you reach the edge of the border strips. Apply contents to 5,000 sq.ft.
