

EXTERMITAL

CAUTION

Flammable mixture. Do not use near fire or flame. Do not use on pets, animals, or warm blooded birds. Remove fishbowls, birds, and pets while spraying. Do not spray on food or food utensils. If sprayed on skin, wash off immediately with soap and water. Avoid inhalation. Use in well ventilated room. Keep out of reach of children since it may be harmful if swallowed. Test surfaces beforehand to determine whether safe against staining, etc. Contents are under pressure and exposure to high temperature could cause bursting. Keep at room temperature away from radiators, stoves, strong sunlight, hot water, and other heat above 120° F. Never place in fire. Dispose of container in fire or incinerator.

Avoid prolonged and repeated contact with skin.

EXTERMITAL

DIRECTIONS

Aim nozzle at infested surface and press button lightly to spray. Spray surfaces where insects rest, run or hide, until they are wet. Repeat all applications as necessary to maintain effective control.

ROACHES, WATERBUGS, CRICKETS, SILVERFISH: Treat around baseboards, cracks under counters, drainboards, cabinets, sinks, drains, pipes, behind shelving, bookcases, moist areas and where they crawl as they come out of hiding.

ANTS: Thoroughly spray ant trails, refuse containers, door sills, window frames, openings around baseboards, pipes, ducts, other ports of entry and areas frequented by ants.

SPIDERS, SCORPIONS, CENTIPEDES: Spray until wet infested baseboards, corners, door and window casings and sills, storage localities and surfaces over which they crawl. Spray insects directly when possible.

WASPS: Spray thoroughly on surfaces around doors, windows and other areas frequented by wasps. Spray wasp nests after dark when all of the wasps are on the nest. Wear protective clothing to avoid stings.
