

ACCEPTED

AUG 24 1997

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 2517-23

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Hazard if swallowed or absorbed through skin. Avoid contact with skin, eyes and clothing. Avoid contamination of food or foodstuffs. Do not allow children or pets in treated areas until surfaces are dry. Do not use in eating product areas of food processing plants, restaurants and other areas where food is commercially prepared or processed. Do not use in dining areas while food is exposed.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other animals. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of waste.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or Poison Control Center immediately. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. DO NOT induce vomiting or give anything by mouth to an unconscious person.

IF ON SKIN: In case of contact, remove contaminated clothing and immediately wash skin with plenty of soap and water.

IF IN EYES: Flush eyes with plenty of water. See a physician if irritation persists.

Not to Physicians: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine by injection only is antidote.

Omaha, NE 68105

EPA Est. No. 70667N-1

EPA Reg. No. 2517-23

NET CONTENTS
16 FL. OZ.
(473 ml)

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING

Remove sprayer top. Sprayer is preset. **DO NOT SPRAY PETS DIRECTLY WITH THIS PRODUCT.**

Use Double Duty Indoor-Outdoor Bug Killer as a spot treatment to help control fleas and ticks. Apply as a fine spray mist to localized areas where pests may occur. Spray surfaces thoroughly but only until wet. Re-treat as needed. Spot test for color fastness before use.

Fleas and Brown Dog Ticks (Indoor):

To control these pests, apply thoroughly as a fine mist to infested areas such as pet beds and resting quarters, in cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor and floor coverings where pests may be present. Old pet bedding should be removed and replaced with fresh bedding after treatment.

Fleas and Brown Ticks (Outdoor):

For treatment of localized infestations of these pests outdoors, thoroughly spray infested areas. Repeat application as infestation warrants and as reinfestation occurs.

Additional treatments to the pet with a product registered for animal application will help control the source of the flea infestation.

Apply only as a fine mist surface spray. Do not replace dishes and food in the treated areas until spray is dry. Do not eat any food or crops sprayed with this product.

STORAGE AND DISPOSAL

Do not reuse empty container. Wrap container in several layers of newspaper and put in trash collection.
