PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Avoid if swallowed or absorbed through skin. Avoid contact with skin, eyes, and clothing. Avoid contamination of feed or foodstuffs. Do not allow children or pets in treated areas until surfaces are dry. Do not use in edible product areas of food processing plants, restaurants and other areas where food is commercially prepared or processed. Do not use in spraying areas while food is exposed.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Do not spray directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or Poison Control Center immediately. Drink 1 or 2 glasses of water and induce vomiting by reaching back of throat with finger. DO NOT induce vomiting or give anything by mouth to an unconscious person.

IF ON SKIN: In case of contact, remove contaminated clothing and immediately wash skin with plenty of soap and water.

IF IN EYES: Flush eyes with plenty of water. See a physician if irritation persists.

Note to Physician: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Absorb by mucous membranes.

Manufactured for: **ConAgra Pet Products Company**
Omaha, NE 68105
EPA Reg. No. 2517-23

**NET
CONTENTS**
16 FL. OZ.
(473 ml)

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING

Remove sprayer top. Sprayer is preset. **DO NOT SPRAY PETS DIRECTLY WITH THIS PRODUCT.**

Use Double Duty Indoor/Outdoor Bug Killer as a spot treatment to help control fleas and ticks. Apply as a fine spray mist to localized areas where pests may occur. Spray surfaces thoroughly but only until wet. Re-treat as needed. Spot test for color fastness before use.

Fleas and Brown Dog Ticks Indoors:

To control these pests, apply thoroughly as a fine mist to infested areas such as pet beds and resting quarters, in cracks and crevices, along and behind baseboards, window and door frames and localized areas of lawn and flower coverings where pests may be present. One pet bedding should be removed and replaced with fresh bedding after treatment.

Fleas and Brown Ticks Outdoors:

For treatment of localized infestations of these pests on floors, thoroughly spray infested areas. Repeat application as infestation warrants and as reinfestation occurs.

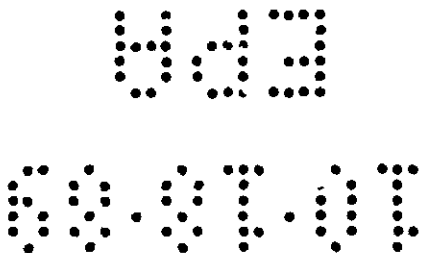

Additional treatment to the pet with a product registered for animal application will help control the source of the reinfestation.

Apply only as a fine mist surface spray. Do not irritate dishes and food in the treated areas until spray is dry. Do not eat any food or crops sprayed with this product.

STORAGE AND DISPOSAL

Do not reuse empty container. Wash container in several layers of newspaper and put in trash collection.
