Sergeant's SENTRY IV DOG COLLAR

Sergeant's SENTRY IV FLEA & TICK COLLAR FOR DOGS

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Do not open inner envelope until ready to use. Collar is intended for use only as an insecticide generator and is not to be taken internally by man or animals. Even with the Bansect[®] Collar, some dogs may be sensitive and may develop neck irritation and loss of hair under the Collar. When Collar is first worn, observe neck area for irritation every few days. Remove Collar if there is evidence of irritation and permit area to heal. Do not use on sick or convalescing dogs. Do not use any other pesticide while Collar is worn. Do not use on cats.

IMPORTANT CONSUMER INFORMATION

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

THIS COLLAR KILLS ALL TYPES OF FLEAS common to dogs, and should be worn continuously to help reduce flea infestations. Buckle Collar securely but not tightly around dog's neck. COLLAR SHOULD BE WORN LOOSELY. Cut off and dispose of excess length in trash. Collar will start killing fleas on dog immediately. New fleas temporarily appearing will be killed during four months Collar is worn. When bathing dog, remove Collar, until dog is dry. Replace when effectiveness diminishes. THIS COLLAR KILLS TICKS more slowly, but ticks will usually be dead in one to five days. Collar will continue to aid in tick control for thirty days, killing American Dog Tick and even Rocky Mountain Wood Tick, carrier of Rocky Mountain Spotted Fever. Dead ticks occasionally remaining in dog's coat are easily detached. For best results, remove hard-to-kill ticks inside ears when Collar is put on.

STORAGE & DISPOSAL

STORAGE: Store only in original container, in a cool dry place inaccessible to children and pets.

DISPOSAL: Discard in the trash the empty pouch, the expired Collar and any trimmed excess Collar.

FOR CATS, USE BANSECT[®] FLEA & TICK COLLAR FOR CATS.
