<b>INERT INGREDIENTS:</b> .....	<b>99.285%</b>
	<b>100.00%</b>

NYLAR®- Registered trademark of McLaughlin Gormley King Co.

READ ENTIRE LABEL BEFORE EACH USE

### DIRECTIONS FOR USE ...

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**FOR INDOOR USE ONLY:** Flea spray kills fleas and ticks. It contains a unique combination of ingredients that kills both adult and preadult fleas. Even kills fleas before they grow up to bite. NYLAR, a unique ingredient in this flea spray, continues to kill fleas for 120 days (4 months) by preventing their development into the adult biting stage. It reaches fleas hidden in carpets, rugs, drapes, upholstery, pet bedding, floor cracks. Protects your home from reinfestation and flea buildup, your pets, and family from bites. One treatment with this spray gives continuous flea protection for 120 days. Leaves no objectional odor or sticky mess and, used as directed, does not stain furnishings.

**FLEAS & TICKS: SHAKE WELL.** Hold can 2 or 3 feet from surfaces to be treated. Be sure to apply uniformly using a sweeping motion to carpets, rugs, drapes, and all surfaces of upholstered furniture. Be sure to treat pet bedding as this is a primary hiding place for fleas. No need to remove pet bedding after treatment. **DO NOT TREAT PETS.** Use a registered flea control product on your pets in conjunction with this treatment. Repeat as necessary. Avoid wetting furniture and carpeting. A fine mist or spray applied uniformly is all that is necessary to kill fleas and ticks.

### PRECAUTIONARY STATEMENTS

#### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**CAUTION:** Harmful if swallowed or absorbed through skin. Contains petroleum distillate. Do not induce because of aspiration pneumonia hazard. Do not breathe vapors or spray mist. Avoid contact with skin or eyes. In case of contact, flush with plenty of water. Wash with soap and warm water after use. Obtain medical attention if irritation persists. Avoid contamination of food or feedstuffs.

Do not use in commercial food processing, preparation, food storage, or serving areas. In the home, all food processing surfaces and utensils should be covered during treatment, or thoroughly washed before use. Exposed food should be covered or removed.

Remove pets, birds, and cover fish aquariums before spraying.

KEEP OUT OF REACH OF CHILDREN  
CAUTION
