SUBJECT: EPA No. Supra-Quick Mist with IGR EPA Registration No. 2517-107
Notification per PR Notice 98-10: Alternate Brand Names

Dear Mr. Gebken:

Per my conversation with Owen Beeder, Sergeant's Pet Care Products, Inc. is **resubmitting** the following administrative documents in support of the Notification per PR Notice 98-10 to add alternate brand names.

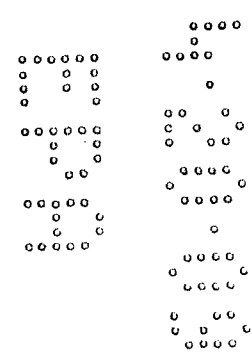

- Notification (EPA Form 8570-1)
- 2 copies of revised master label
- Virbac Master Label for EPA Reg. No. 2382-131
- Transfer Letter from Virbac to Sergeant's Pet Care Products, Inc.

Should you have any questions about this submission, please contact me via phone at 402/938-7065 or email at skane@sergeants.com.

Sincerely,

Susan Kane
Regulatory Specialist
Sergeant's Pet Care Products, Inc.

SUPRA-QUICK MIST with IGR

Pyriproxyfen, pyrethrins, piperonyl butoxide, N-Octyl bicycloheptene dicarboximide

**READ ENTIRE LABEL BEFORE EACH USE
USE ONLY ON [DOGS] [AND] [CATS]**

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION

NOTIFICATION

MAY 14 2009

HAZARDS TO HUMANS: Avoid contamination of foodstuffs. Wash hands after using.

HAZARDS TO DOMESTIC ANIMALS:

Do not treat pets aged less than 6 months. Consult a veterinarian before treating debilitated, aged, medicated, pregnant or nursing animals. Sensitivities may occur after using any pesticide product on pets. If signs of sensitivity occur, bathe your pet with mild soap or a non-pesticidal shampoo and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Spray over entire haircoat making sure the coat is thoroughly wetted to the skin. Spray against the lay of the hair, ruffling the coat on long-haired pets. Weight of pet, length of hair and density of coat will determine amount of spray to be applied to wet the skin [average dose approximately 7.5 g/kg for dogs] [and] [5 g/kg for cats]. [This 16 oz. bottle should be sufficient for [three applications to an average 30-35 lbs. of dog] [or] [20 applications to a 10 lb. cat]]. **OR** [This 8 oz. bottle should be sufficient for [two applications to an average 20-25 lbs. of dog] [or] [10 applications to a 10 lb. cat]]. When applied at the label dose rate, the [dog] [or] [cat] should not be retreated more frequently than once every 14 days. Lighter applications will reduce period of effectiveness, may result in earlier reinfection and may require more frequent retreatment. For best results in controlling ticks, spray directly on the tick. Allow pet to air dry or blow dry. Do not towel dry. This product is formulated to leave the hair coat soft and manageable for grooming.

STORAGE AND DISPOSAL

STORAGE: Store in a cool area.

DISPOSAL: Do not reuse empty container. Wrap in several layers of newspaper and discard in trash.
