SUBJECT: Application for Pesticide Notification (PRN 98-10)
Request Alternate Brand Names "Sergeant's Gold Flea and Tick Shampoo for
Dogs"
"Sergeant's Gold Flea and Tick Shampoo for Cats"
"Sentry Flea and Tick Shampoo for Dogs and Puppies"
EPA Reg. No. 2517-114
Application Dated April 14, 2009

Dear Registrant:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 dated 04/14/09 for the above product. The Registration Division 07(RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action(s) requested fall within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

If you have any questions, please call me directly at 703-305-6249 or Owen F. Beeder of my staff at 703-308-8899.

Sincerely,

A handwritten signature in black ink, appearing to read "Linda Arrington".

SUBJECT: Pyrethrin-Pyriproxyfen Residual Ovisterilant Shampoo # 1/ EPA Reg. No. 2517-114
Notification per PR Notice 98-10: Alternate Brand Names

Dear Mr. Gebken:

Per my conversation with Owen Beeder, Sergeant's Pet Care Products, Inc. is **resubmitting** the following administrative documents in support of the Notification per PR Notice 98-10 to add alternate brand names.

- Notification (EPA Form 8570-1)
- 2 copies of revised master label
- Master Label for Virbac EPA Registration No. 2382-164 (Please Note: Typo on cover letter regarding formula name. It should read **Pyrethrin** rather than Permethrin)
- Transfer letter from Virbac to Sergeant's Pet Care Products, Inc.

Should you have any questions about this submission, please contact me via phone at 402/938-7065 or email at skane@sergeants.com.

Sincerely,

Susan Kane
Regulatory Specialist

NOTIFICATION

MAY 14 2009

Do not treat nursing puppies or kittens. Do not use on puppies under 11 weeks of age and on kittens under 6 months of age. Consult a veterinarian before treating pregnant, nursing, sick, aged, debilitated, or medicated dogs [or cats]. Sensitivities may occur after using any pesticide product on pets. If signs of sensitivity occur, bathe pet with mild soap or a non-pesticidal shampoo and rinse with large quantities of water. If signs continue consult a veterinarian immediately. Wash hands with soap and water after using.

{BOX OPTIONAL}

FIRST AID	
IF ON SKIN OR CLOTHING:	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.

IF SWALLOWED	<ul style="list-style-type: none"> • Call a poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give anything by mouth to an unconscious person.
HOT LINE NUMBER	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-781-4738 for emergency medical treatment information. (Information in brackets is optional)	

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

The dual synergistic pyrethrins provide immediate killing of fleas and ticks on the pet. Pyriproxyfen, in this special formulation*, is absorbed onto, and sticks tightly to hair and skin, even after complete rinsing. This insect growth regulator (a synthetic flea hormone) sterilizes all fleas that jump onto the pet (even new fleas before they start laying eggs) and therefore kills all flea eggs. This action persists for 1 month and breaks the flea's life cycle by preventing the development of new fleas in the pet's environment and the build-up of reinfestation pressure. Shake well before using. Wet the pet thoroughly with warm water. Apply product onto its back at the rate of approximately 1 tablespoon for each 5 lb. bodyweight (7.5g per kg) for dogs and puppies and 1/2 tablespoonful (8.5g per kg) for cats and kittens. Massage well into the skin to obtain good lathering over the entire body. Allow lather to remain in contact for at least 10 minutes then rinse off. Allow pet to air dry or blow dry. To maintain effective flea life cycle control (through IGR flea egg killing) repeat treatment at least once every month. Under conditions of flea reinfestation pressure from the environment, repeat treatment when new parasites are seen on the pet, but not more frequently than once weekly on dogs and twice monthly on cats.
