Sergeant's Pet Care Products, Inc.
c/o James Messina
Exponent, Inc.
1150 Connecticut, Ave., NW
Suite 1100
Washington, DC 20036

Subject: PRIA Label Amendment – Revision to CRP, revisions to align with spot-on mitigation
Product Name: Sergeant's Fipronil + Methoprene Squeeze-on for Dogs
EPA Registration Number: 2517-134
Application Dates: 06/28/2019, 2/14/2020, 5/24/2021
Decision Numbers: 552839, 560420, 576042

Dear Mr. Messina:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

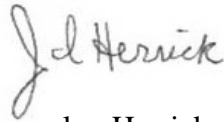

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Page 2 of 2
EPA Reg. No. 2517-134
Decision Nos. 552839, 560420, 576042

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact me by phone at 703-347-0559, or via email at herrick.jacquelyn@epa.gov.

Sincerely,

A handwritten signature in cursive script that reads "J. Herrick".

Jacquelyn Herrick, Product Manager 03
Invertebrate & Vertebrate Branch 1

**DOG SQUEEZE ON
(FIPRONIL+METHOPRENE)**

[[Brand Name]][This product] contains Fipronil and S-Methoprene [(insect growth regulator)][(IGR)] to effectively kill fleas and ticks [(including those that may transmit Lyme disease).] [The active ingredients in [Brand Name][This product] feature a sustained release formula developed for fast acting [and long lasting] control of fleas, ticks, [mosquitoes] and chewing lice for [1 month] [[4][four] weeks] on dogs.]]

**READ ENTIRE LABEL BEFORE EACH USE
USE ONLY ON DOGS AND PUPPIES 8 WEEKS [OF AGE] OR OLDER
[AND] [WEIGHING] [5-22] LBS
{OR}**

USE ONLY ON DOGS 8 WEEKS [OF AGE] OR OLDER [WEIGHING] [23-44], [45-88] [89- 132] LBS

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS. CAUTION. Harmful if swallowed. Causes eye irritation. Avoid contact with skin, eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

HAZARDS TO DOMESTIC ANIMALS. For external use on dogs only. Individual sensitivities, while rare, may occur after using any pesticide product on dogs. Certain medications can interact with pesticides. Do not treat your dog with more than one pesticide product at a time. Overdosing your dog can result in serious illness and even death. Consult a veterinarian before using on medicated, debilitated, aged, pregnant or nursing dogs. Consult a veterinarian before using on dogs with known organ dysfunction. If your dog is exhibiting signs of and/or is being treated for skin dermatitis, talk to your veterinarian before applying any topical flea and tick control product. This product is not a substitute for prescribed heartworm preventative.

FIRST AID

If swallowed:	<ul style="list-style-type: none">• Call a poison control center or a doctor immediately for treatment advice.• Have person sip a glass of water if able to swallow.• Do not induce vomiting unless told to do so by a poison control center or doctor.• Do not give anything by mouth to an unconscious person.
If in eyes:	<ul style="list-style-type: none">• Hold eye open and rinse slowly and gently with water for 15-20 minutes.• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.• Call a poison control center or doctor for treatment advice.
If on skin:	<ul style="list-style-type: none">• Take off contaminated clothing.• Rinse skin immediately with plenty of water for 15-20 minutes.• Call a poison control center or doctor for treatment advice.

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. [For more information on this pesticide product (including health concerns, medical emergencies or pesticide incidents)], you may also call 1-800-XXX-XXX[.] [for emergency medical treatment information.]

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DO NOT ALLOW CHILDREN TO APPLY PRODUCT. To prevent harm to you and your dog, read entire label before each use. Follow all directions and precautionary statements carefully. Dog must be dry at time of application and remain dry for 24 hours after application. Use entire contents of [tube] [vial] [applicator] on each dog. Weigh your dog to be sure you are applying the right dose formulated for the weight of your dog. Separate the treated dog from all other dogs and cats for 24 hours after treatment has been applied to prevent chance of ingestion.

RESTRICTIONS:

Do not use on cats or animals other than dogs.
Do not allow your dog to ingest this product.
Do not use on dogs or puppies under 8 weeks of age or less than [5][23][45][89] lbs.
Do not bathe or allow dog to swim for 24 hours after application.
Do not apply more than one [tube][vial] [applicator] per treatment for one dog regardless of dog's weight.
Do not reapply for [30 days] [4 weeks][one month].

[CUT. PART. SQUEEZE.] {in Paragraph or numbered form}

[Easier-than-ever [tube] [vial] lets you *clip* the tip, *part* the fur and *apply* directly to the skin – putting protection from fleas and ticks where it needs to be.]

{**CRP option 1:** CRP component is the white tube with color indicator; one of the following terms “tube” or “vial” will be used consistently with this package and throughout the label.}

How to open:

Remove product tubes [vial] from the package. [Separate one tube [vial] from the others.] Hold the tube [vial] with notched end pointing up and away from the face and body. Use scissors to CUT off the narrow end at the notches along the line.

How to apply:

PART [or lift] the dog's hair between the shoulder blades so that the dog's skin is exposed.
SQUEEZE contents of tube in [a [1][single] spot between the shoulder blades] [3 to 4 spots from the shoulder blades to a point midway down the back] until tube is empty. Do not apply down to the dog's tail.

{OR}

{**CRP option 2:** CRP component is the clear blue applicator in strips of 2, 3, or 6. The term “applicator” will be used consistently with this package and throughout the label.}

How to open:

Remove applicator from package.
Hold applicator with narrow end in an upright position. Position thumb over raised dot. Use scissors to CUT off tip of applicator along the line.

How to apply:

PART [or lift] the dog's hair between the shoulder blades so that the dog's skin is exposed.
SQUEEZE contents of applicator in [a [1][single] spot between the shoulder blades] [3 to 4 spots from the shoulder blades to a point midway down the back] until applicator is empty. Do not apply down to the dog's tail.

{Side Effects box to be located immediately above the cat warning box on the back label panel}

Side Effects: Monitor your dog after application. [Some dogs may experience temporary startle effects when any product is applied.] Dogs may experience [some] temporary irritation at the site of product application such as redness, scratching or other signs of discomfort. If signs of sensitivity occur, bathe your dog with a mild soap and rinse with large amounts of water. If any side effects occur or your dog has unusual reaction to the application, consult your veterinarian or call 1-800-XXX-XXXX. Consult your veterinarian before repeating application.

ALL OPTIONAL LANGUAGE TO INCLUDE POTENTIAL INSERT

DOG SQUEEZE ON (FIPRONIL+METHOPRENE)

{How to Apply - May contain graphics included in Master Label illustrating product use, e.g., dog with a drop falling onto its neck from a [tube] [vial] [applicator] on front, side, or back carton label and/or [tube] [vial] [applicator] labeling.} {Optional marketing statements below may appear anywhere on the market label}

{**Brand Name**}

READ ENTIRE LABEL BEFORE EACH USE
USE ONLY ON DOGS AND PUPPIES 8 WEEKS [OF AGE] OR OLDER
[WEIGHING] [5-22] LBS

{OR}

USE ONLY ON DOGS 8 WEEKS [OF AGE] OR OLDER [WEIGHING] [23-44] [45-88] [89- 132] LBS

[CUT. PART. SQUEEZE.] {in Paragraph or numbered form}

[Easier-than-ever [tube] [vial] lets you *clip* the tip, *part* the fur and *apply* directly to the skin – putting protection from fleas and ticks where it needs to be.]

{**CRP option 1:** CRP component is the white tube with color indicator; one of the following terms “tube” or “vial” will be used consistently with this package and throughout the label.}

How to Open

[1] Remove product tube[vial][s] from the package.

[2] [Separate one tube [vial] from the others.] Hold the tube [vial] with notched end pointing up and away from the face and body. Use scissors to CUT off the narrow end at the notches along the line.

How to Apply

PART [or lift] the dog's hair between the shoulder blades so that the dog's skin is exposed.

SQUEEZE contents of tube in [a [1][single] spot between the shoulder blades] [3 to 4 spots from the shoulder blades to a point midway down the back] until tube is empty. Do not apply down to the dog's tail.

{OR}

{**CRP option 2:** CRP component is the clear blue applicator in strips of 2, 3, or 6. The term “applicator” will be used consistently with this package and throughout the label.}

How to Open

[1] Remove applicator from package.

[2] Hold applicator with narrow end in an upright position. Position thumb over raised dot. Use scissors to CUT off tip of applicator along the line.

How to apply:

PART [or lift] the dog's hair between the shoulder blades so that the dog's skin is exposed.

SQUEEZE contents of applicator in [a [1][single] spot between the shoulder blades] [3 to 4 spots from the shoulder blades to a point midway down the back] until applicator is empty. Do not apply down to the dog's tail.

FIRST AID

If swallowed:	<ul style="list-style-type: none">• Call a poison control center or a doctor immediately for treatment advice.• Have person sip a glass of water if able to swallow.• Do not induce vomiting unless told to do so by a poison control center or doctor.• Do not give anything by mouth to an unconscious person.
If in eyes:	<ul style="list-style-type: none">• Hold eye open and rinse slowly and gently with water for 15-20 minutes.• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.• call a poison control center or doctor for treatment advice.
If on skin:	<ul style="list-style-type: none">• Take off contaminated clothing.• Rinse skin immediately with plenty of water for 15-20 minutes.• Call a poison control center or doctor for treatment advice.

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor or going for treatment. [For more information on this pesticide product (including health concerns, medical emergencies or pesticide incidents)], you may also call 1-800-XXX-XXX[.] [for emergency medical treatment information.]

[Look at the Label (Look at the Label icon) [Easy] 5 Step [Easy] [Spot On] [Squeeze-On] [Topical] Checklist]

- [1] Read the label completely and follow directions
- [2] Weigh [your] dog
- [3] Do NOT treat with more than one pesticide product at a time
- [4] Separate treated dogs from other pets after [treatment] [application] to avoid chance of ingestion
- [5] Do NOT split [tubes] [vials] [applicators] between dogs [and use the ENTIRE [tube] [vial] [applicator] contents]

What To Look For

Fleas: Flea dirt (small dark flakes), excessive itching or scratching. You may also see adult fleas on your dog's coat and skin.

Ticks: Adult ticks are often visible to the naked eye, so you may spot them on short-haired dogs. But with longer-haired dogs, it's best to do a thorough inspection with a flea comb. Ticks like dark places on your dog. Check inside the ears, under the tail, collar, arms and leg folds. Use a flea comb for a thorough inspection.

Why Protect your Dog?

Both fleas and ticks are small but harmful.

- Some dogs may have sensitivity to flea saliva and can have allergic reactions, leading to painful and intense itching. Fleas can also transmit tapeworms.
- Tick bites may also trigger allergic reactions and may transmit Lyme disease.

Tips:

1. Know the current weight and age of your dog – don't guess.
2. Do not use cat products on dogs or dog products on cats.
3. Avoid an overdose. Use one flea/tick product on your dog at a time.
4. Use ENTIRE contents of [tube] [applicator]. Do not divide [tubes][applicators] among dogs.
5. Wait to bathe. Your dog needs to be dry 24 hours before and after application.
6. SEPARATE treated dog from other pets for 24 hours.

How does the product work?

The product spreads through the natural oils on your dog's skin and delivers continuously over the dog's body.

EPA No. 2517-134

Information in { } is instructional

Page 11 of 23

Supersedes EPA SAL 11/20/2017

What should I expect after applying the product?

You may see more fleas after applying because fleas are coming into contact with the product and are trying to get away. If you use a flea comb you can see they are dead.

Things to consider if still seeing fleas on your dog:

- First, **DO NOT** apply a second application before the treatment cycle end per label directions.
- Was dog dry 24 hours before and after application?
- Did you have a lapse in treatment?
- [Did you apply the correct dose and according to Directions for Use?]

How long until my dog's fleas and ticks are gone?}

The product will spread over your dog's coat within 24-48 hours. Any fleas and ticks that jump onto your dog after the application will start to die within 24-48 hours.

It's possible you had fleas in your home or yard that were present BEFORE you started using [brand name]. Adult fleas represent only 5% of the flea population. What you don't see are the other life stages (eggs, larvae, pupae) which could be lurking on your dog or in your home. Break the cycle by regularly using topical prevention on your dog. This product is for treating listed pests on your dog. For home and outdoor pests please use the appropriate product as needed. It's important to protect your dog and your home. 95% of fleas live in pre-adult stages in the dog's environment.

What's unique about the applicator?

Our improved applicator was designed by pet parents for pet parents. It gives you more control of every drop. It's easy to hold and part fur to apply directly to the skin. And the applicator is clear so you can tell [see] when it's empty.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS. CAUTION. Harmful if swallowed. Causes eye irritation. Avoid contact with skin, eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

HAZARDS TO DOMESTIC ANIMALS. For external use on dogs only. Individual sensitivities, while rare, may occur after using any pesticide product on dogs. Certain medications can interact with pesticides. Do not treat a dog with more than one pesticide product at a time. Over dosing a dog can result in serious illness and even death. Use caution before using on medicated, debilitated, aged, pregnant, nursing dogs or dogs with known organ dysfunction. If the dog is exhibiting signs of and/or is being treated for skin dermatitis, use caution before applying any topical flea and tick control product. This product is not a substitute for prescribed heartworm preventative.

FIRST AID

If swallowed:	<ul style="list-style-type: none">• Call a poison control center or a doctor immediately for treatment advice.• Have person sip a glass of water if able to swallow.• Do not induce vomiting unless told to do so by a poison control center or doctor.• Do not give anything by mouth to an unconscious person.
If in eyes:	<ul style="list-style-type: none">• Hold eye open and rinse slowly and gently with water for 15-20 minutes.• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.• Call a poison control center or doctor for treatment advice.
If on skin:	<ul style="list-style-type: none">• Take off contaminated clothing.• Rinse skin immediately with plenty of water for 15-20 minutes.• Call a poison control center or doctor for treatment advice.

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. [For more information on this pesticide product (including health concerns, medical emergencies or pesticide incidents)], you may also call 1-800-XXX-XXX[.] [for emergency medical treatment information.]

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DO NOT ALLOW CHILDREN TO APPLY PRODUCT. To prevent harm to you and your dog, read entire label before each use. Follow all directions and precautionary statements carefully. Dog must be dry at time of application and remain dry for 24 hours after application. Use entire contents of [tube] [vial] [applicator] on each dog. Weigh your dog to be sure you are applying the right dose formulated for the weight of your dog. Separate the treated dog from all other dogs and cats for 24 hours after treatment has been applied to prevent chance of ingestion.

RESTRICTIONS:

Do not use on cats or animals other than dogs.

Do not allow your dog to ingest this product.

Do not use on dogs or puppies under 8 weeks of age or less than [5][23][45][89] lbs.

Do not bathe or allow dog to swim for 24 hours after application.

Do not apply more than one [tube] [vial] [applicator] per treatment for one dog regardless of dog's weight.

Do not reapply for [30 days] [4 weeks] [one month].

{Side Effects box to be located immediately above the cat warning box on the back label panel}

Side Effects: Monitor your dog after application. [Some dogs may experience temporary startle effects when any product is applied.] Dogs may experience [some] temporary irritation at the site of product application such as redness, scratching or other signs of discomfort. If signs of sensitivity occur, bathe your dog with a mild soap and rinse with large amounts of water. If any side effects occur or your dog has unusual reaction to the application, consult your veterinarian or call 1-800-XXX-XXXX. Consult your veterinarian before repeating application.

{A minimum of 1.5cm x 1.5cm cat prohibition icon and warning text will be in a box in the lower right hand corner of the back panel with black cat + red circle and line through the cat, black text, on white background to ensure easy spotting.}

DO NOT USE ON CATS. Keep cats away from treated dogs for 24 hours. If applied to a cat or ingested by a cat, contact your veterinarian.
