

HIGLEY

Pine Oil Disinfectant

A powerful, pleasant, disinfectant, deodorant, germicide and cleanser. Because of its pleasing pine odor, Higley Pine Oil Disinfectant is admirably adapted for use in schools, hotels, banks, public institutions, office buildings, as well as in the home.

ACTIVE INGREDIENTS	90%
Steam Distilled Pine Oil	
Soap	
INERT INGREDIENTS:	
Water, not more than	10%
USDA Reg. No. 2527-7	

Directions

GENERAL DISINFECTING: Remove all filth and dirt from the premises, and use a solution of 2 ounces per gallon of water.

FLOORS: When mopping or scrubbing use 2 ounces of Pine Oil Disinfectant to each gallon of water in the bucket.

TOILET ROOMS, URINALS: Wash the fixtures, floors, urinal bowls, etc., regularly with a solution of 2 ounces of Pine Oil Disinfectant per gallon of water, leaving the solution in the bowl as long as possible. Scrub the seat with some of the solution frequently.

NOTE: Always put Higley Pine Oil Disinfectant in pail first and then add the water. It forms a creamy milk-white emulsion which does not separate on standing. It is non-corrosive, non-caustic, and when mixed with water in recommended dilutions, does not stain the walls, floors, or clothes, and leaves a pleasant and agreeable odor of pine.

CAUTION: KEEP OUT OF REACH OF CHILDREN.
