

## DIRECTIONS

**GENERAL USE:** Add  $\frac{1}{8}$  cup of bleach per each 2 gallons of water. Boiling is unnecessary. Mix well. Wash in usual way. As a bleach add  $\frac{1}{8}$  cup or 1 oz. per 2 gallons water or one cup bleach per each washing machine load (16 gallon machine). Rinse in several waters before drying. In automatics bleach should be added to suds water before clothing is placed in machine. If added while clothing is in suds, dilute with 1 quart of water before adding.

**STAIN REMOVER:** To remove scorch, ink, fruit, tea, coffee, grass or other stains, add  $\frac{1}{4}$  cup of bleach to quart of water. Mix well and allow to soak until stains disappear. Rinse thoroughly.

**BATHROOM & KITCHEN:** Use  $\frac{1}{8}$  cup bleach per quart of water. To clean sinks, bathtubs, tile, linoleum, porcelain, etc., spread solution with cloth. Let stand 2 minutes. Rinse well. DO NOT use on silverware. **TOILET BOWLS:** Use  $\frac{1}{2}$  cup, pour in bleach and swab with brush. Let stand for 10 minutes and then flush. DO NOT use with other toilet bowl cleanser, ammonia or household chemical.

## USE SOLUTION WHILE AND AFTER DISINFECTING

For all surfaces in bathroom and kitchen, use  $\frac{1}{2}$  cup bleach per gallon of water. Wash thoroughly with warm suds, rinse, then spread above solution with a cloth to wet surfaces thoroughly — let stand for 2 minutes and then rinse well.
