SALINA, KANSAS 67401**PRECAUTIONARY
STATEMENTS****Hazards to Humans
(and Domestic Animals)
CAUTION**Irritating to skin and eyes.
Do not get in the eyes.
Avoid skin contact.
Wash thoroughly with soap and water after using.
Avoid inhalation of spray mist.Do not remain in treated areas ventilate the area after treatment is com-
pleted.Avoid contamination of cooking utensils, food ingredients, feed and water
supplies.Remove fish and birds and other domestic pets from room during spraying
and keep out of room until spray is dry.Do not spray directly on pets, domestic livestock especially dairy
animals.

Do not give as internal treatment to animals.

Do not use in milk houses or dairy barns.

Do not apply directly to food.

Do not apply as a space spray while food processing is underway. Foods
should be removed or covered before treatment. After spraying, wash all
surfaces which will contact food with a suitable detergent and rinse with potable water.With the exception of federally inspected meat and poultry plants, food
processing operations do not have to be stopped while applying a wet
spray with care and in accordance with the directions and cautions
indicated.

Destroy any contaminated food, feed or raw ingredients.

ENVIRONMENTAL HAZARDSThis product is toxic to fish. Keep out of any body of water. Do not
contaminate water when disposing of equipment wash waters. Apply the
product only as specified on this label.**PHYSICAL OR CHEMICAL HAZARDS**

Keep container closed when not in use.

Keep away from heat and open flame.

DIRECTIONS FOR USEIt is a violation of Federal Insecticide Act to use this product in a manner inconsistent
with its labeling.MAX KILL® Contacta-Cide® 30 is a contact READY TO USE insecticide
designed for use in flour mills, feed mills, feed and food processing plants,
cereal grain processing plants, grain elevators, granaries, shophouses,
dryed empty railcars, grain trucks, warehouse-bas, food and seed stores,
grocery stores, restaurants and hotels.WHEN USED AS A SPRAY in mills, cereal grain processing plants, grain
handling facilities, elevators, granaries for the control of accessible
stages of the grain weevil, rice weevil, cadelle, confused flour beetle,
saw-toothed grain beetle, lesser grain borer and other listed crawling in-
sects: spray floors, walls, and other surfaces of bins, storage and handling
areas thoroughly with particular attention to cracks, crevices, and other
protected locations. Waste grain, dust, dirt, and debris should be removed
and destroyed and storage areas thoroughly cleaned before spraying.
Treat unloading, handling and processing areas as well as EMPTY convey-
ing, processing and handling equipment, for example the inside of reel
sifters, purifier conveyors, sifters, roll housings and hoppers, pick-up con-
veyors, etc. Spray thoroughly around the base of heavy machinery and
equipment. Let sprayed surface thoroughly dry before using. One gallon
will cover 750 square feet of non-absorbent surface.AS A PROTECTANT in empty boxcars, grain trucks, barges and ship holds
for the control of accessible stages of the grain weevil, rice weevil,
cadelle, confused flour beetle, saw-toothed grain beetle, lesser grain borer,
and other listed crawling insects: spray the floors, walls, beams, cracks,
crevices and other protected harborage points until surfaces are wet. A
fan-type sprayer may be used utilizing low pressure. Allow for complete
drying before loading. One gallon will cover 750 square feet of non-
absorbent surface.WHEN USED AS A SPRAY in food plants, grocery stores, hotels, food and
seed stores and restaurants for the control of accessible stages of
cockroaches, silverfish, spiders, ants, crickets and listed cereal grain in-
sects: use as a spray which can operate at a low pressure and which will
produce a coarse non-misting spray pattern. Avoid contamination of food
or foodstuffs as well as utensils or other food containers. Spray the floors,
mold boards, cracks, crevices, and other areas where insects are known to
hide. (See other precautions on side panel.) Apply spray until areas are wet
but not to point of runoff. One gallon will cover 750 square feet of non-
absorbent surface.WHEN USED AS A FOG for Indian meal moth, angoumois grain moth,
hornets, wasps, gnats, mosquitoes, flies and accessible stages of listed
insects in mills, food processing plants, elevators and empty granaries or
grain bins: use a mechanical or air-operated fogging apparatus and MAX
KILL® Contacta-Cide® 30 at the rate of one quart per 5,000 cubic feet.
Close all doors and windows before application and leave closed for 30
minutes after total dosage has been applied to allow for settling.WHEN USED AS A FOG in empty boxcars, van type grain trucks, barges
and ship holds for the control of accessible stages of the grain weevil,
rice weevil, cadelle, confused flour beetle, saw-toothed grain beetle, lesser
grain borer and listed flying insects: use a mechanical or air-operated fog-
ging apparatus and MAX KILL® Contacta-Cide® 30 at the rate of one quart
per 5,000 cubic feet. Close all doors and hatches before applying and leave
closed for 30 minutes after total dosage has been applied to allow for
settling.WHEN USED AS A FOG in boxcars or van type trucks containing bagged
flour or feed for the control of listed flying insects and accessible stages of
listed cereal grain insects: cover the bags with either paper or plastic tarp
and apply at the rate of 8 ounces (1/4 pint) per 1,000 cubic feet of
unoccupied space. Close all doors before applying and leave closed for 30
minutes after total dosage has been applied.**STORAGE AND DISPOSAL****1. PROHIBITIONS**

Do not contaminate water, food or feed by storage or disposal.

2. PESTICIDE DISPOSALWastes resulting from the use of this product may be disposed of on
site or at an approved waste disposal facility.**3. CONTAINER DISPOSAL**Triple rinse (or equivalent). Then offer for recycling or reconditioning,
or puncture and dispose of in a sanitary landfill or by other procedures
approved by state and local authorities.**4. GENERAL**Consult federal, state and local disposal authorities for approved
procedures other than those given above. Approved procedures vary
considerably for different types of generators.**5. EQUIVALENT METHOD TO TRIPLE RINSING**Empty drums as completely as possible. Remove the bungs and place
the drums upside down until liquid has evaporated.**NON-WARRANTY**Seller makes no warranty, expressed or implied, concerning the use of this
product other than indicated on the label. Buyer assumes all risk of use
and proper handling of the material when such use and handling is contrary
to label instructions.**BEST AVAILABLE COPY**
