KEEP OUT OF REACH OF CHILDREN  
DANGER POISON

STATEMENTS OF PRACTICAL TREATMENT

If swallowed: Call a physician or Poison Control Center. Administer water freely and induce vomiting by giving one dose (1/2 oz or 15 ml) of syrup of ipecac. If vomiting does not occur within 10 to 20 minutes, administer second dose. If syrup of ipecac is not available, induce vomiting by sticking finger down throat. Repeat until vomit fluid is clear. Never give anything by mouth to an unconscious person.  
If inhaled: Remove victim to fresh air. Apply respirator if indicated.  
If on skin: Wash area immediately with soap and warm water.  
If in eyes: Flush with plenty of water and get prompt medical attention.

PRECAUTIONARY STATEMENTS  
(Hazards to Humans and Domestic Animals)  
DANGER

May be fatal if swallowed, inhaled, or absorbed through the skin. Do not get in eyes as it causes eye irritation, on skin, or on clothing. In case of exposure, wear natural rubber gloves, protective clothing and goggles. In case of contact, wash immediately with soap and warm water. Keep children and pets off treated area until dry. Do not store product near feed or food products. Do not contaminate food. Wash hands, arms, and face thoroughly with soap and water before eating or smoking. Wash all contaminated clothing with soap and hot water before re-use. Do not use as a space spray. Provide adequate ventilation of area being treated. Do not apply to animals or humans. Do not use on food crops. Do not use in animal barns and poultry houses for fly control. If poisoning occurs get prompt medical aid. Note to Physician: Atropine is antidotal.

ENVIRONMENTAL HAZARDS

This product is toxic to birds and wildlife. Do not contaminate water by cleaning equipment or disposal of equipment washwaters.

PHYSICAL & CHEMICAL HAZARDS

Since this is a water suspension, do not apply to rugs, carpets, drapenee, wallpaper or similar materials that may be stained or watermarked. The solvents of this formulation may stain certain plastic, rubber, and asphalt materials such as tiles and floor coverings. Do not treat such materials without first testing a small inconspicuous area.

DIRECTIONS FOR USE:  
IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT  
IN A MANNER INCONSISTENT WITH ITS LABELING

STORAGE AND DISPOSAL

- 1. Prohibition: Do not contaminate water, food or feed by storage or disposal, or cleaning of equipment. Open dumping is prohibited. Do not store near feed or food products. Store in a cool place. Keep away from direct sunlight, radiators, stoves and other heat. Do not use or store near heat or open flame. Do not store below 32°F. Material will freeze and may result in a burst bottle. Product may be reconstituted by agitation and warming to 70° F.
- 2. Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or residue is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
- 3. Container Disposal: A) Reseal container and offer for reconditioning, or B) Triple rinse (or equivalent) and offer for recycling or reconditioning, or disposal of in a sanitary landfill, or by other approved state or local procedures.

RECOMMENDED USES:

ANTS, COCKROACHES, EARWIGS, CRICKETS, BROWN DOG TICKS,  
WATERBUGS, SPIDERS

DIRECTIONS FOR USE

\*Controls strains of cockroaches resistant to certain chlorinated hydrocarbon and organophosphate insecticides.

HI-KIL gives excellent control of ants, cockroaches, clover mites, crickets, earwig, flies, home, millipedes, saw-toothed grain beetles (exposed stages), scorpions, silverfish, spiders, sowbugs, brown dog ticks, wasps, waterbugs. Provides good flushing action of cockroaches rapid knockdown and long residual control of these and the other insects. HI-KIL mixes rapidly with water and may be applied with most types of hand or power operated sprayers. Do not apply this product using a trigger pump sprayer. CAUTION: Do not use in fiberglass tanks. The spray mixture made from this formulation may loosen paint coatings in metal tanks if allowed to stand for more than a few hours. Clean tanks thoroughly before and after use.

INDOORS

Pest control in and around homes, apartment buildings, stores and warehouses. For residual control of ants, cockroaches, millipedes, silverfish, waterbugs and to aid in control of saw-toothed grain beetles (exposed stage), mix 8 fluid ounces (1/2 pint) of HI-KIL in one gallon of water (1% concentration) and apply as a residual spray to baseboards, window frames, the undersides of shelves and drawers under sinks.

and stoves and to other places where insects may hide. Also spray cracks, crevices and surfaces where insects may crawl when they come out of hiding. For ants, spray trails and places where ants enter premises. Repeat as necessary. Do not spray foodstuffs or house plants. DO NOT USE AS A SPACE SPRAY. PROVIDE ADEQUATE VENTILATION OF AREA BEING TREATED. Do not allow children to contact treated surfaces until surfaces are completely dry.

**OUTDOORS:**

For use by Pest Control Operators and Commercial Applicators for residual control of insects around industrial buildings, homes, garbage areas, and dumps.

Residual Spray: for Ants, Cockroaches, Earwigs, Flies, Hornets, Millipedes, Mosquitoes, Sand Flies or Funkies, Spiders, Crickets, Clover Mites, Scorpions, Brown Dog Ticks, Wasps and Waterbugs.

Mix 8 fluid ounces (1/2 pint) of Hi-Kil in 1 gallon of water\* (1.1% concentration) and apply as a residual spray or with a paint brush to surface of buildings, porches, screens, window frames, patios and garages where these insects congregate. For control of wasps and hornets, apply after dark when all of the insects have returned to the nest. Repeat as necessary. Do not treat plants (lawns, flowering plants, shrubs, trees, etc.)

To control Sand Flies or Funkies, mix 8 fluid ounces (1/2 pint) of Hi-Kil in 1 quart of water\* (4.5% concentration) and apply with a paint brush to outside surfaces of door and window screens and other screened areas where insects may enter buildings. Thorough coverage is necessary for maximum control.

\*The use of this material in water at 40°F or below will result in crystallization in the spray tank. Do not use in oil. Do not allow spray to stand overnight in the spray tank.
