

FOR USE ONLY BY QUALIFIED PEST CONTROL OPERATORS AND COMMERCIAL APPLICATORS

HI-KIL

Residual Concentrate Makes One Gallon CONTAINS @BAYGON

KILLS RESISTANT ROACHES*, WATERBUGS, ANTS & CERTAIN OTHER INSECTS**

ACTIVE INGREDIENTS:
 2-(1-Methylethoxy) Phenol Methylcarbamate 19.6%
 INERT INGREDIENTS 80.4%
 TOTAL 100.0%

Contains 1.5 lbs. 2-(1-Methylethoxy) phenol Methylcarbamate per gallon.

DANGER:

KEEP OUT OF REACH OF CHILDREN.

See Statement of Practical Treatment on Side Panel

Manufactured by

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS DANGER

Causes irreversible eye damage.
May be fatal if swallowed and harmful if inhaled. Do not get in eyes or on clothing. Wear goggles or face shield. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Remove and wash all contaminated clothing with soap and hot water before reuse. Do not contaminate food.

STATEMENTS OF PRACTICAL TREATMENT

If in eyes: Hold eyelids open and flush with plenty of water. Get medical attention. If swallowed: Call a physician or Poison Control Center. Administer water freely and induce vomiting by giving one dose (1/2 oz. or 15 ml) of syrup of ipecac. If syrup of ipecac is not available, induce vomiting by sticking fingers down throat. Repeat until vomit fluid is clear. Never give anything by mouth to an unconscious person. If on skin: Wash skin immediately with soap and water. If inhaled: Remove to fresh air. If not breathing, give artificial respiration, preferably mouth to mouth. Get medical attention.

SYMPTOMS OF POISONING: A sense of "tightness" in the chest. Sweating. Contracted pupils. Stomach pains. Vomiting and diarrhea. If poisoning occurs, get prompt medical aid.

NOTE TO PHYSICIAN: ANTIDOTE - Administer atropine sulfate in large therapeutic doses. Repeat as necessary to the point of tolerance.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds, and other wildlife. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark.

Do not contaminate water by cleaning of equipment or disposal of equipment washwaters. Apply this product only as specified on this label.

PHYSICAL/CHEMICAL HAZARDS

Do not use or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

IMPORTANT: Read these entire Directions and Conditions of Sale before using.

Hi-Kil Concentrate gives excellent control of ants, cockroaches, clover mites, crickets, earwigs, fleas (exterior or structural surfaces), mosquitoes (exterior structural surfaces), flies, hornets, millipedes, saw-toothed grain beetles (exposed stage), scorpions, silverfish, sowbugs, spiders, brown dog ticks, wasps, waterbugs, punkies and sand flies. It provides good flushing action of cockroaches, rapid knockdown and long residual control of these and the other insects. Hi-Kil Concentrate will also control strains of cockroaches and mosquitoes resistant to certain chlorinated hydrocarbon and organophosphate insecticides. Hi-Kil Concentrate mixes readily with water and may be applied with most types of hand or power operated sprayers. Agitate spray mixture frequently. Do not apply this product using a trigger pump sprayer.
Do not formulate this product into other end use products.

RESTRICTIONS

Since this is a water suspension material, do not apply to rugs, carpets, draperies, wallpaper, or similar materials that may be stained or water-marked. The solvents of this formulation may stain certain plastics, rubber, and asphalt materials, such as tiles and floor coverings. Do not treat such materials without first testing a small inconspicuous area. Do not use as a space spray. Provide adequate ventilation of area being treated. Do not apply to animals or humans. Do not use on food crops. Do not use on plants. Do not allow children to contact treated surfaces until surfaces are completely dry.

STORAGE AND DISPOSAL

Pesticide Disposal: Do not contaminate water, food or feed by storage or disposal. Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or residue is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

Store in a cool, dry place and in such a manner as to prevent cross contamination with other pesticides, fertilizers, food, and feed. Do not store below 32° F.

Keep away from direct sunlight, radiators, stoves and other heat. Store in original container and out of the reach of children, preferably in a locked storage area.

Handle an open container in a manner as to prevent spillage. If container is leaking, invert to prevent leakage. If the container is leaking or material is spilled for any reason or cause, carefully dam up spilled material to prevent runoff. Refer to Precautionary Statements on label for hazards associated with the handling of this material. Do not walk through spilled material. Absorb spilled material with absorbent type compounds and dispose of as directed for pesticides above. In spill or leak incidents, keep unauthorized people away.
NOTE: Do not use in fiberglass tanks. The spray mixture made from this formulation may loosen paint coatings in metal tanks if allowed to stand for more than a few hours. Clean tanks thoroughly before and after use.

INDOORS:

Pest Control in Homes, Apartment Buildings, Stores and Warehouses: For residual control of ants, cockroaches, millipedes, silverfish, spiders, waterbugs and to aid in control of saw-toothed grain beetles (exposed stage), mix 8 fluid ounces (1/2 pint) of Hi-Kil Concentrate in 1 gallon of water* (1.1% concentration). Apply as a coarse spray to control the above listed pests. Spray cracks, crevices, along baseboards, door and window sills, as well as inaccessible areas behind stoves, refrigerators, around garbage cans, compactors, and utility installations. DO NOT spray open floor areas, carpets, furniture, beds, or bedding. For ants, spray trails and places where ants enter premises. Repeat as necessary. Do not spray food-stuffs or house plants. DO NOT USE AS A SPACE SPRAY. PROVIDE ADEQUATE VENTILATION OF AREA BEING TREATED.

EXTERIOR STRUCTURAL SURFACES

Residual Spray for Ants, Cockroaches, Earwigs, Fleas, Hornets, Millipedes, Mosquitoes, Spiders, Crickets, Clover Mites, Scorpions, Sowbugs, Brown Dog Ticks, Wasps, and Waterbugs. Mix 8 fluid ounces (1/2 pint) of Hi-Kil Concentrate in 1 gallon of water* (1.1% concentration) and apply as a residual spray to surfaces of buildings, porches, window frames, and garages. Apply around foundations, patios, driveways, and sidewalks as a spot treatment where insects congregate. For control of wasps and hornets, apply after dark when all of the insects have returned to the nest. Repeat as necessary. Do not apply as a landscape treatment to lawns, shrubs or trees, or to garden plants. *The use of this material in water at 40° F. or below will result in crystallization in the spray tank. Do not use in oil. Do not allow spray mixture to stand overnight in the spray tank.

ACCEPTED

SEP 23 1997

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registration number EPA Reg. No. 2553-37
