CONCENTRATED SANITIZING CLEANER CLEANER • DEODORANT • DISINFECTANT • FUNGICIDE

ACTIVE INGREDIENTS:

n-Alkyl (60% C ₁₂ , 30% C ₁₄ , 5% C ₁₆ , 5% C ₁₈)	1.6
dimethyl benzyl ammonium chlorides	1.6%
n-Alkyl (68% C ₁₂ , 32% C ₁₄) dimethyl ethylbenzyl ammonium chlorides	3.0%
Sodium Carbonate	0.2
Essential Oils	93.6%

INERT INGREDIENTS:

100%

WARNING

Keep out of Reach of Children. See Right side panel for additional precautionary statements.

ARROW LABORATORIES, New Haven, Conn. 06511

EPA Reg. No. 2564-3

ACCEPTED

11/28/72

UNDER THE FEDERAL INSECTICIDE ACT
FENITROTHION AND DITHIONOSE
FOR REGISTERED USE IN THE U.S.A.
EPA REG. NO. 2564-3

USE DIRECTIONS:

Use at 2 ounces per gallon. This product will provide 500 ppm quaternary to the use solution. This is enough for general disinfection, fungicidal activity against pathogenic fungi and deodorizing.

If a pseudomocidal product is needed, then 3 ounces per gallon will be required. For heavy soil, a precleaning step is recommended before using Arrow Concentrated Sanitizing Cleaner.

For best results, use with cloth or mop and apply to walls, floors, and other hard surfaces. If used on food contact items, limit the level of active quaternary to 200 ppm (4 ounces per 5 gallons), and no rinse is required.

WARNING

Keep Out of Reach of Children. Causes eye and skin irritation. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food.

FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Call a physician.

Arrow Concentrated Sanitizing Cleaner is a cleaner, disinfectant, and sanitizer designed for general household and light industrial cleaning. For use on walls, floors and similar inanimate hard surfaces. When used as directed, it will also deodorize those areas which generally are hard to keep fresh smelling, such as **GARBAGE PAILS, SINK TOPS, AND BATHROOM AREAS** which are prone to odors caused by the growth of some microorganisms. Effective against *Staphylococcus aureus* and *Salmonella choleraesuis* at 2 ounces per gallon. Also effective against pathogenic fungi, *Trichophyton interdigitale*, at this use dilution.

At 3 ounces per gallon, a hospital disinfecting claim against *Pseudomonas aeruginosa* can be made.

When used for sanitization of food processing and food contact items, limit the active quaternary to 200 ppm. At this level, **No Potable Water Rinse** is required.

PHENOL COEFFICIENTS:	Guaranteed	Minimum
	<i>S. aureus</i>	30
	<i>S. typhosa</i>	19

RINSE EMPTY CONTAINER THOROUGHLY WITH WATER AND DISCARD
