Treated Tuna Oil	4.0%
Xylin	22.4%
Mineral Spirits	35.8%
	100.0%

U.S.D.A. REG. NO. 2568-6

CALCUTTA GREEN ANTI-FOULING

DIRECTIONS

Stir thoroughly before and during application, and allow 4-6 hours drying time between coats and before launching. It is not advisable to delay launching longer than 24 hours. For wooden hulls apply to bare wood or to a surface properly prepared by sanding, wire brushing, and cleaning. For best results two coats should be applied, and on new work no less than three coats. No other primer should be used. For application to metal hulls, apply first several coats of underwater primer. No thinner is normally needed . . . turpentine may be used to wash brushes or replace solvent lost by evaporation

WARNING! FLAMMABLE! Keep away from heat, sparks and open flame. CONTAINS MERCURIC OXIDE OR OTHER COMPOUNDS THAT MAY BE FATAL IF SWALLOWED. Do not apply on any interior surface of a dwelling, or a place used for the care of children, or on window sills, toys, cribs and other furniture which might be chewed by children. Do not breathe vapor or spray mist. Do not get in eyes on skin or on clothing. Wash thoroughly after handling and before eating or smoking. Keep container closed when not in use. KEEP OUT OF REACH OF CHILDREN. Use with adequate ventilation. Do not take internally.
