NEW YORK, N. Y.

DIRECTIONS

Stir thoroughly both before and during application. Allow 4-6 hours drying time between coats and before launching. It is not advisable to delay launching longer than 24 hours.

No thinner is normally needed. REGATTA 3800 Thinner may be used for washing brushes or to replace solvent lost by evaporation. On new work apply a minimum of three coats. Calcutta Blue may be applied directly over most old anti-fouling paints that are in good condition after sanding to remove any powdery film. Two coats should be used in such repainting.

WOOD BOTTOMS — Apply directly to bare wood.

FIBREGLASS BOTTOMS — Calcutta Blue may be applied directly to bare fibreglass that has been prepared as follows; sand to remove the gloss using 80-120 grit sand paper and then wash with REGATTA to remove any residual mold release agent.

STEEL AND ALUMINUM BOTTOMS — Prepare surfaces with REGATTA Vinyltex 50/51 Wash Primer, then apply two coats REGATTA 3630/3631 Epoxydur Black Mastic. Follow with at least two coats REGATTA Anti-Fouling Paint.

CAUTION! COMBUSTIBLE! Keep away from heat, sparks, and open flame. CONTAINS COMPOUNDS HARMFUL IF EATEN. Do not apply on any interior surfaces of a dwelling, or a place used for the care of children, or on window sills, toys, cribs and other furniture which might be chewed by children. Avoid breathing vapor or spray mist and prolonged contact with skin. Wash thoroughly after handling and before eating or smoking. Keep container closed when not in use. KEEP OUT OF REACH OF CHILDREN. Use with adequate ventilation. Do not take internally.
