ACCEPTED
AUG 13 1975
Under the Federal Insecticide,
Fungicide, and Rodenticide Act,
as amended, for the pesticide
registered under
EPA Reg. No. 2596-49

DIRECTIONS: REMOVE COLLAR FROM PACKAGE, UNROLL, AND STRETCH TO ACTIVATE INSECTICIDE GENERATOR.

Do not unroll collar until ready to use. Place the Hartz "2 in 1..." collar around the cat's neck, adjust for proper fit, and buckle in place. The collar must be worn loosely to allow for growth of the cat and to permit the collar to move about the neck. Generally, a properly fitted collar is one that when fastened will snugly slide over the cat's head. Leave 2 or 3 inches on the collar for extra adjustment and cut off and dispose of the extra length. Some animals may become irritated by any collar if it is applied too tightly. If this occurs loosen the collar. If irritation continues, remove the collar from the animal. This collar is intended for use only as an insecticide generator.

For continuous flea protection under normal conditions, replace the collar every 3 months. Under conditions where cats are exposed to severe flea infestations it may be necessary to replace the collar every 2 months. Ticks may be an occasional problem for cats. The "2 in 1..." collar will kill ticks for 60 days and continue to aid in their control an additional 30 days. The cat should be examined from time to time and the collar replaced when mature tick or flea populations begin to appear. Wetting will not impair the collar's effectiveness or pet's protection. If the cat is out in the rain it is not necessary to remove the collar.

The Hartz "2 in 1..." collar may be worn with a regular collar.

ACTIVE INGREDIENT	BY WEIGHT
2-Chloro-1-(2,4,5-trichlorophenyl)	
vinyl dimethyl phosphate	9.5%
INERT INGREDIENTS	90.5%
TOTAL	100.0%
