# 90 PERCH FOR BIRDS

Hartz Mountain 90 Day perch for birds is an insecticide resin strand securely encased in a slotted hardwood perch. Its unique insecticidal activity protects your pet and aids in the alleviation of excessive scratching due to parasites for three months by killing mites and lice on your bird. Insecticidal activity is diminished by washing; therefore to preserve full potency scrape perch clean—Do Not Wash.

fects your pet and aids in the alleviation of excessive scratching due to parasites for three months by killing mites and lice on your bird. Insecticidal activity is diminished by washing; therefore to preserve full potency scrape perch clean—Do Not Wash.

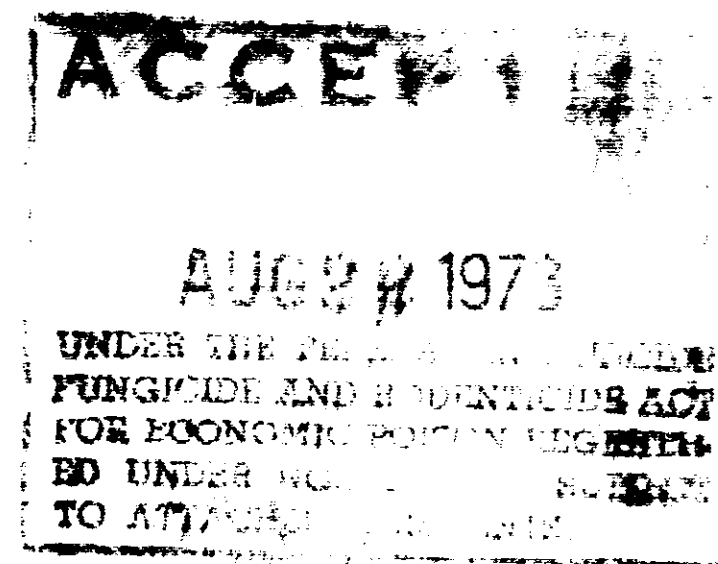

When using a nightcover, provide adequate ventilation.

Use one 90 Day perch for birds to each cage. To open, remove and slit protective cover. Place perch in cage—resin strip side down. Slip notched ends over upright cage wires with perch resting on horizontal bars. (See illustration.) In larger cages, up to 6 cubic feet, perch may be installed across a corner.

**CAUTION:** Do not open protective pouch until ready to use. Do not allow children to play with this perch. Do not use any other pesticides on bird while perch is in cage. Perch is intended for use as an insecticide generator (Shell's U.S. Patents 2,956,073, 3,116,201 and 3,187,769) and is not to be taken internally by man or animals. Wash hands thoroughly with soap and water after handling perch. Do not use in nurseries or rooms where infants, ill or aged persons are confined. Do not use in restaurants, kitchens, dining areas, or other areas where food is prepared or served.

<b>ACTIVE INGREDIENTS:</b>	
2, 2-dichlorovinyl dimethyl phosphate .....	2.14%
