...ING DILL FOR \$1.98

FITS ALL SIZE CATS

DIRECTIONS: Buckle collar around cat's neck securely but very loosely. Cut off any excess length of collar and dispose of it. Collar starts killing fleas as soon as it is placed around cat's neck. The fleas on the cat will be killed and new ones which may temporarily appear on the cat will also be killed during the 3 months collar is worn. Excessive exposure to water reduces effectiveness. Remove if cat is bathed. Replace collar when effectiveness diminishes. Collar must be worn loosely.

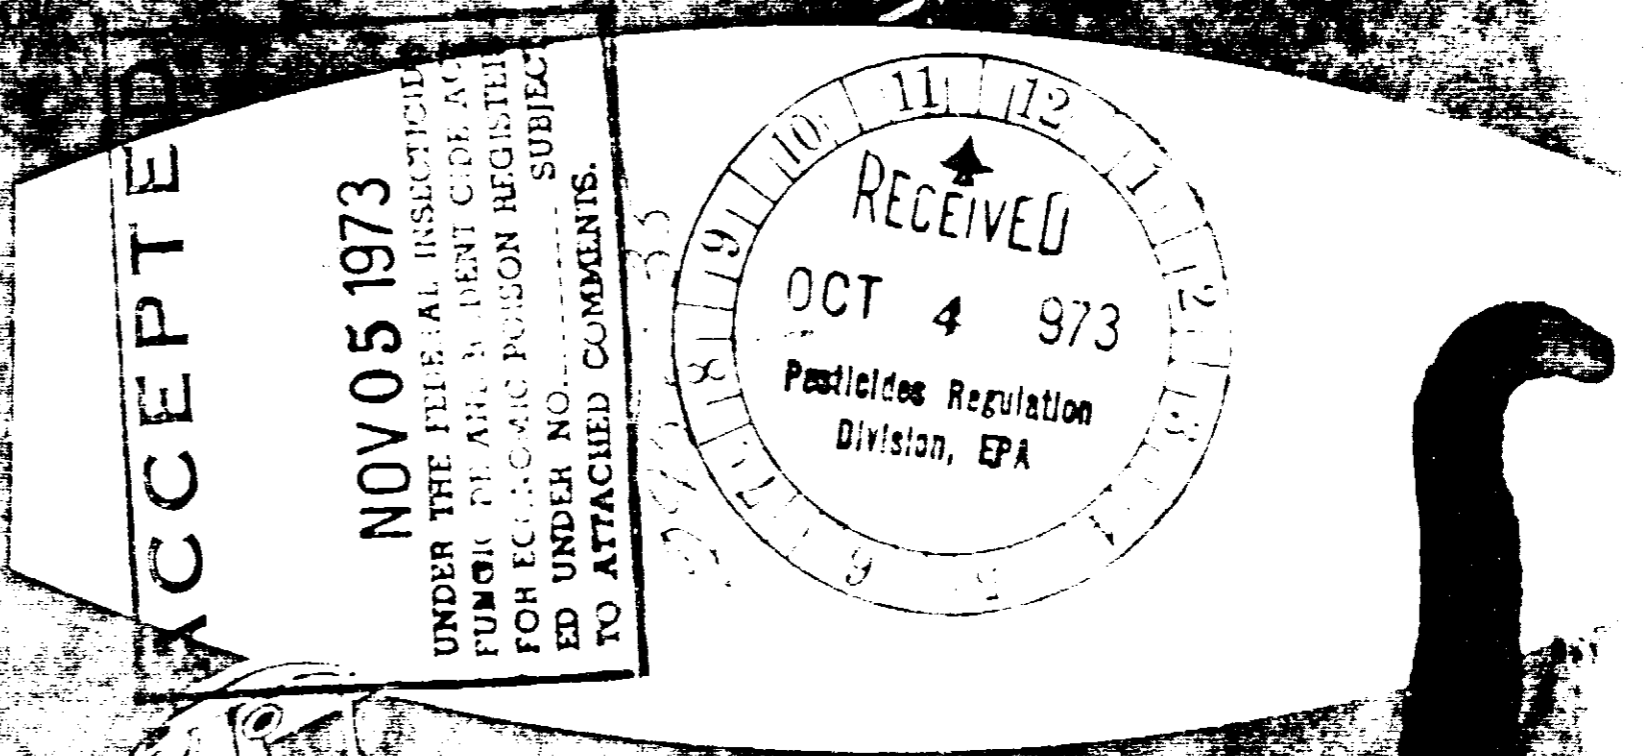

CAUTION: Do not open inner envelope until ready to use. Do not allow children to play with this collar. Collar is not for use only as an insecticide generator and is not to be taken internally by man or animals. For use on cats only. Cats occasionally object to wearing a collar. They are also unpredictably sensitive to many chemicals. In such cases (or if collar is too tight), a local irritation may result. Should this happen remove collar and permit area to heal. Do not use on sick or convalescing cats. Do not use on Peruvians. Do not use any other pesticide on cat while collar is worn. (For fleas on dogs use Collar For Dogs.) Animals should not be allowed to chew on the collar. When collar is first worn, observe neck area for irritation every few days.

ACTIVE INGREDIENTS:
 2,2-dichlorovinyl dimethyl phosphate 4.57%
 P-menthane-3,8-diol 0.33%
INERT INGREDIENTS: 95.10%
 100.00%
