2596-317

**DIRECTIONS:** Clip Dog Tag to dog's collar. Flea kill begins at once and will continue for 3 months while Dog Tag is worn. Ticks are harder to kill, but those in the neck area only will be killed for a short period after Dog Tag is attached. For continuous protection, replace Dog Tag every 3 months.

**CAUTION:** Do not open protective pouch until ready to use. Do not allow children to play with Tag. Tag is intended for use only as an insecticide generator, and is not to be taken internally by man or animal. Do not use on sick or convalescing dogs. Do not use on cats, whippets, or greyhounds. Do not use other pesticides on dogs while Tag is worn. Remove Tag if any adverse reactions are observed. Some animals may be sensitive to this product.

**ACTIVE INGREDIENTS**

2,2-Dichloro-4,4-dimethyl-1,3-dioxane-5-phosphate  
0.05%  
Permethrin
