Hartz 2 in 1 Plus Longlasting Flea & Tick Collar for Cats  
EPA Registration No. 2596-63  
Your Submissions Dated February 23, July 21, and August 9, 1989

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable. Stamped copies are enclosed for your records.

Based on current Confidential Statement of Formulas (CSF), your product will not meet the label claim for the active ingredient. Please revise the CSF's so that the information agrees. Note that lower limits of active ingredient must equal label claims in pure active form.

Sincerely,

George T. Lakooca  
Product Manager 15  
Insecticide-Rodenticide Branch  
Registration Division (H7505C)

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling

**REMOVE COLLAR FROM PACKAGE. UNROLL AND STRETCH TO ACTIVATE INSECTICIDE GENERATOR.**

Do not unroll collar until ready to use. Place the Longlife 90 Day Brand collar around the cat's neck, adjust for proper fit, and buckle in place. Collar must be worn loosely to allow for growth of the cat and to permit the collar to move about the neck. Generally, a properly fitted collar is one that can be fastened and will snugly slide over the cat's head. Leave 2 or 3 inches of extra length for extra adjustment and cut off and dispose of the extra length. Some animals may become irritated by any collar if it is applied too tight. If irritation occurs loosen the collar. If irritation continues, remove the collar from the animal. This collar is intended for use only as an insecticide generator. For continuous flea protection under normal conditions, replace collar every 3 months. Under conditions where cats are exposed to severe flea infestation it may be necessary to replace the collar every 2 months. Flea infestation may be an occasional problem for cats. The collar will kill ticks for 6 months. Continue to aid in their control an additional 30 days. The cat should be examined from time to time and the collar replaced when mature flea populations begin to appear. Wetting will not impair the collar's effectiveness or pet's protection. If the cat is out in the rain it is not necessary to remove the collar. The Longlife 90 Day Brand collar may be worn with a regular collar. **DISPOSAL**—Do not use empty pouch. Dispose in trash collection.
