REMOVE COLLAR FROM PACKAGE, UNROLL AND STRETCH TO ACTIVATE INSECTICIDE GENERATOR

Do not unroll collar until ready to use. Place the Hartz 2 in 1 Flea & Tick Collar around the dog's neck, adjust for proper fit, and buckle in place. Collar must be worn loosely to allow for growth of the dog and to permit collar to move about the neck. Generally, a properly fitted collar is one that when fastened will snugly slide over the dog's head. Leave 2 or 3 inches of the collar for extra adjustment and cut off and dispose of the extra. Some animals may become irritated by any collar if it is applied too tightly. If this occurs, loosen the collar. If irritation continues, remove the collar from the animal. This collar is intended for use only as an insecticide generator. It kills fleas and ticks common to dogs, including Rocky Mountain Woodrat, carrier of Rocky Mountain Spotted Fever, and the Deer Tick, carrier of Lyme Disease. The collar will begin to kill fleas and ticks immediately. Its effectiveness against harder to kill ticks will be built up within a few days. After being placed on the pet. For continuous flea and tick protection under normal conditions, replace the collar every five months. Under conditions where the pet is exposed to severe flea or tick infestations, it may be necessary to replace the collar more frequently. Wetting will not impair the collar's effectiveness. If the dog goes swimming or is out in the rain, it is not necessary to remove the collar. The Hartz 2 in 1 collar may be worn over a regular collar.

DISPOSAL: Do not use empty pouch. Dispose in trash collection.
