### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**IMPORTANT CONSUMER INFORMATION AND PET I.D. TAG OFFER** printed on inside of package!

**REMOVE COLLAR FROM PACKAGE, UNROLL AND STRETCH TO ACTIVATE INSECTICIDE GENERATOR**

It is not advisable to use this collar or similar pesticides on puppies less than 6 weeks of age. Do not unroll collar until ready to use. Place the Hartz 2 in 1 flea & Tick collar around the dog's neck, adjust for proper fit, and buckle in place. The collar must be worn loosely to allow for growth of the dog and to permit the collar to move about the neck. Generally, a properly fitted collar is one that when fastened will snugly slide over the dog's head. Leave 2 or 3 inches on the collar for extra adjustment and cut off and dispose of the extra length. Some animals may become irritated by any collar if it is applied too tightly. If this occurs loosen the collar. If irritation continues, remove the collar from the animal. This collar is intended for use only as an insecticide generator.

Kills fleas and ticks common to dogs, including Rocky Mountain Wood Tick, carrier of Rocky Mountain Spotted Fever, and the Deer Tick, which may carry Lyme Disease. The collar will begin to kill fleas and ticks immediately. Its full protection against harder to kill ticks will be built up within a few days after being placed on the pet. For continuous flea and tick protection under normal conditions replace the collar every five months. Under conditions where dogs are exposed to severe flea or tick infestations it may be necessary to replace the collar more frequently. Wetting will not impair the collar's effectiveness or the pet's protection. If the dog goes swimming or is out in the rain it is not necessary to remove the collar. The Hartz 2 in 1 collar may be worn with a regular collar.

**DISPOSAL**—Do not use empty pouch. Dispose in trash collection.
