HARTZ 2in1 COLLAR

for Dogs With Necks To 23"

ACCEPTED
09 JUL 1986
Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 2596-62

IMPORTANT: CONSUMER INFORMATION AND PET I.D. TAG OFFER PRINTED ON INSIDE OF PACKAGE

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

REMOVE COLLAR FROM PACKAGE, UNROLL AND STRETCH TO ACTIVATE. AS THE COLLAR BEGINS TO WORK A FINE WHITE POWDER WILL APPEAR ON THE SURFACE.

ACTIVE INGREDIENT:	By Weight (Nom.)
Tetrachloro-phos: 2-Chloro-1-(2,4,5-trichlorophenyl) vinyl dimethyl phosphate	14.55%
INERT INGREDIENTS:	85.45%
TOTAL	100.00%

Kills fleas and ticks common to dogs, including Rocky Mountain Wood Tick, carrier of Rocky Mountain Spotted Fever, and the Deer Tick, which may carry Lyme Disease.

It is not advisable to use this collar or similar pesticides on puppies less than 6 weeks of age. Do not unroll collar until ready to use. Place the Hartz 2 in 1 Flea & Tick Collar around the dog's neck and buckle in place. The active ingredient will work its way from the surface of the collar onto your pet's coat providing continuous protection against fleas and ticks. The collar must be worn loosely to allow for growth of the dog and to permit the collar to move about the neck. A properly fitted collar is one that when fastened will snugly slide over the dog's head. Leave 2 or 3 inches on the collar for extra adjustment and cut off and dispose of the extra length. Some animals may become irritated by any collar if it is applied too tightly. If this occurs loosen the collar. If irritation continues, remove the collar from the animal. This collar is intended for use only as an insecticide generator. The collar will begin to kill fleas and ticks immediately. Its full protection against harder to kill ticks will be built up within a few days after being placed on the pet. For continuous flea and tick protection under normal conditions replace the collar every five months. Under conditions where dogs are exposed to severe flea or tick infestations it may be necessary to replace the collar more frequently. Wetting will not impair the collar's effectiveness or the pet's protection. If the dog goes swimming or is out in the rain it is not necessary to remove the collar. The Hartz 2 in 1 collar may be worn with a regular collar.

DISPOSAL - Do not use empty pouch. Dispose in trash collection.
