

CAUTION

Hazards to Humans and Domestic Animals
 Harmful if swallowed. Avoid inhalation of vapors. Avoid contact with skin, eyes or clothing. Wash contaminated skin promptly with soap and warm water. For eyes, flush with plenty of water and get medical attention if irritation persists.

Do not use in commercial food processing, preparation, storage or serving areas. In the home, avoid contamination of food and food stuffs. All food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Cover exposed food.

Remove pets, birds and cover fish aquariums before spraying.

Physical Hazards: Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

KEEP OUT OF REACH OF CHILDREN

CAUTION: Contents Under
 Pressure. See side panel for
 additional cautions.
 EPA Reg. No. 2596-77
 EPA Est. No. 11525-R1-1

NET WT. 7.5 oz 212. g

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Storage and Disposal

Storage: Store in a cool, dry area away from heat or open flame.
Disposal: Do not re-use empty container. Wrap container and put in trash collection.

For Use as a Total Release Household Spray: Cover exposed foods, dishes and food handling equipment. Cover exposed finished wood surfaces. Open cabinets and closets in area to be treated. Do not expel complete contents of can in closed closets or cabinets. Shut off fans and air conditioners. Put out all flames and pilots lights. Close doors and windows. Use one unit for 6,000 cubic feet of unobstructed area.

Place can on a raised area such as a table in the center of the room. Place several layers of newspaper under the can to protect the area directly beneath the spray head. Remove cap, tilting can away from your face. Press valve activator tip down into rim to lock in open position. Leave the room at once and keep closed for four (4) hours before airing out. The spray will continue until the complete contents have been released. Open all windows and doors and allow space to air for thirty (30) minutes.

For use as a Manual Insecticide Spray: This product can be used for spot spraying; do not lock top, spray in short bursts, pointing spray upwards with a circular motion for 5-10 seconds, filling the room with mist. Shut doors and windows, keeping the room closed for 15-20 minutes. Then air room out for 15 minutes. Leave room during treatment and ventilation. Dispose of dead insects. Repeat treatment as necessary. Do not use Bye Bye Bug as a one shot type treatment after using manually.

ANTS AND ROACHES: Spray directly on insects whenever possible. Spray all parts of the room suspected of harboring pests, such as cracks, food storage areas, and hidden surfaces under sinks or behind refrigerators. For control of ants, spray around windows, doors, and any ant trails. Repeat as necessary.

TICKS: Destroy old pet bedding and replace. Treat dogs and cats with a registered tick control product, such as Hartz Flea and Tick Killer, prior to re-entry. Repeat as necessary.

FLEAS: Use one container for each 1500 cubic feet of space.

Set it... and leave.
Hartz Bye Bye Bug 2 Fogger fills the room — killing fleas, ticks, mosquitoes, ants, and many other pests listed on the container label.

Just set the valve and leave the room. In a few hours the job's done. Fogging method reaches every corner of problem room to kill insects without having to spray each insect individually.

Bye Bye Bug 2 Fogger is completely automatic. After setting the valve it works while humans are out of the room. One can will treat a room of up to 6,000 cubic feet. May also be used as a regular manual insecticide spray.
