OTHER INGREDIENTS:.....96.7%

Keep out of reach of children.

CAUTION: See back panel for additional precautionary statements.

Net Wt. 4oz 113 g

BACK PANEL

Mandatory Copy

READ ENTIRE LABEL BEFORE EACH USE.

USE ONLY ON DOGS.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To kill fleas, ticks and lice, and to reduce itching and scratching due to insect bites, dust entire dog beginning at head and working back. Make sure that the powder gets down to the skin. Take care to treat feet and legs.

Recommended Dosage: Use approximately 2/3 ounce of powder for a small dog (e.g. Terrier). Use approximately 1 ounce of powder for a medium dog (e.g. Spaniel). Use approximately 1 1/2 ounce of powder for a large dog (e.g. Labrador). More powder may be needed for longhaired dogs. There is sufficient powder in this container to treat a small dog 4 times.

Lightly dust dog's bedding with approximately the same amount of powder. Repeat treatment of dog and bedding at weekly intervals if necessary.

To control Sarcoptic Mange – a problem often encountered by dogs. Lesions which form are usually characteristic by loss of hair, redness and possible open sores. Hartz 2 in 1 Flea and Tick Powder will kill the mite which causes this problem. To treat the dog, apply the powder as directed above, making sure that all sores and lesions are covered. Repeat application weekly for at least 3 treatments. More advanced lesions may require further weekly treatments. The area will begin to heal immediately, but complete healing, including hair growth, may take several weeks. If irritation persists, consult your veterinarian.

STORAGE AND DISPOSAL: Store at room temperature. Do not re-use empty container. Securely wrap container in several layers of newspaper and discard in trash.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

NOTE TO PHYSICIANS AND VETERINARIANS:

Treat symptomatically. Atropine is antidotal only if symptoms of cholinesterase inhibition are present.

Do not use this product on animals simultaneously or within 30 days before or after treatment with or exposure to cholinesterase inhibiting drugs, pesticides, or chemicals. However, flea and tick collars may be immediately replaced.

CAUTION: It is good practice to avoid contact of the product with eyes and to wash hands and exposed skin after use. Do not use this product on puppies less than 6 weeks of age. Consult a veterinarian before using this product on debilitated, aged or medicated animals. If used on pregnant dogs, do not repeat until puppies are at least 6 weeks old. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.
