INERT INGREDIENTS	85.45%
TOTAL	100.00%

To activate collar hold  
at each end... **STRETCH**  
...it's ready to work.

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling

### REMOVE COLLAR FROM PACKAGE, UNROLL AND STRETCH TO ACTIVATE INSECTICIDE GENERATOR

Do not unroll collar until ready to use. Place the Hartz 2 in 1 Plus collar around the cat's neck, adjust for proper fit, and buckle in place. The collar must be worn loosely to allow for growth of the cat and to permit the collar to move about the neck. Generally, a properly fitted collar is one that when fastened will snugly slide over the cat's head. Leave 2 or 3 inches on the collar for extra adjustment and cut off and dispose of the extra length. Some animals may become irritated by any collar if it is applied too tightly. If this occurs loosen the collar. If irritation continues, remove the collar from the animal. This collar is intended for use only as an insecticide generator.

For continuous flea protection under normal conditions, replace the collar every 7 months. Under conditions where cats are exposed to severe flea infestations it may be necessary to replace the collar more frequently. Ticks, which may be an occasional problem for cats, are harder to kill. The collar's full protection against ticks, including the Qum Tick, which may carry Lyme Disease, will be built up within a few days after being placed on the animal. The 2 in 1 Plus collar will kill ticks for 5 months under normal conditions and aid in their control an additional 2 months. The cat should be examined from time to time and the collar replaced when mature tick or flea population begins to appear. Wetting will not impair the collar's effectiveness or the pet's protection. If the cat is out of the home it is not necessary to remove the collar. The Hartz 2 in 1 Plus collar may be worn with a regular collar. It is recommended that the pet's bedding or sleeping quarters be treated for flea and tick control with a product registered for this use such as Hartz Cat Flea and Tick Spray. It is not advisable to use this or similar pesticides on kittens less than six weeks old.

DISPOSAL - Do not reuse empty pouch. Dispose in trash collection.
