**ACCEPTED**

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act,  
as amended for the purpose,  
registered under  
EPA Reg. No. 2596-84

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**REMOVE COLLAR FROM PACKAGE, UNROLL  
AND ACTIVATE INSECTICIDE GEL**

Do not unroll collar until ready to use. Place the Hartz collar over the dog's neck, adjust for proper fit, and buckle in place. Allow for growth of the dog and to permit the collar to stretch. A properly fitted collar is one that when fastened will snugly fit 2 or 3 inches on the collar for extra adjustment and length. Some animals may become irritated by any collar. If irritation occurs loosen the collar. If irritation continues, remove collar. Collar is intended for use only as an insecticide gel.

Kills fleas and ticks common to dogs, including the Dog Flea, the Dog Tick, the Rocky Mountain Wood Tick, which transmits the Rocky Mountain Spotted Fever. The collar will begin to kill fleas and ticks immediately. Fleas and ticks that are harder to kill will be built up within a few days. Continuous flea protection under normal conditions, the collar kills ticks for 5 months and aids in the control of ticks. Under conditions where dogs are exposed to severe flea infestations, it may be necessary to replace the collar more frequently or augment with a registered product for this use, such as Hartz 2 in 1 Flea and Tick Spray. It will not impair the collar's effectiveness or the pet's protection if the collar is worn with a regular collar. It is recommended that the quarters be treated for flea and tick control with a product registered for this use such as Hartz 2 in 1 Flea and Tick Spray. It is not recommended to use pesticides on puppies less than six weeks old.

**DISPOSAL** - Do not reuse empty pouch. Dispose in household trash collection.
