Dear Dr. Perlberg:

Subject: Hartz 2 in 1 Flea & Tick Killer for Cats - Fine Mist Spray
EPA Registration No. 2596-93
Your Submission Dated June 13, 1990

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records.

The efficacy data showing mortality of deer ticks directly exposed to spray material are acceptable to support a claim for killing deer ticks on cats at the time of treatment. The addition of "including the deer tick, the carrier of Lyme disease" along with the comment under "Directions for Use" that "Ticks are tough - spray directly" is acceptable.

Sincerely yours,

Phil Hutton
