related compounds

EPA Reg No. 2596-111
EPA Est. 2596-N1-1

7 g

Keep Out of Reach of Children
CAUTION: See back panel for additional
precautions.

- Kills ticks, fleas and lice
- Deodorizes

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Remove cap and invert tube. To kill attached ticks, merely touch the tip of the applicator to the tick, making sure that a small amount of product wets the tick. Within a few hours the tick will release and may be easily removed. Do not pull tick out until it releases. Unattached ticks and fleas will also be killed quickly if touched with the applicator.

For general tick and flea control, run tip of applicator along the hair, pressing down to skin if possible. Apply around the neck of the animal, down the back and the belly, at the base of the tail and around the ears. Repeat treatment as necessary.

STORAGE AND DISPOSAL

Do not reuse empty container. Wrap container and put in trash collection.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Do not use near birds, fish or foodstuffs. Do not get in eyes of animals. Do not use on puppies or kittens under 6 weeks old. Wash hands thoroughly after use and removal of parasites.

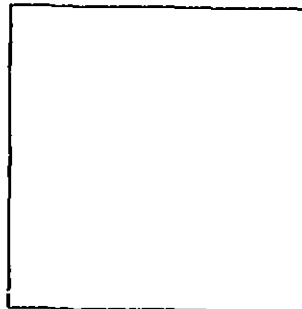

Physical or Chemical Hazards

Do not use or store near heat or open flame.
