 2 Chloro-1,4-bis(4-methylphenyl)-  
 vinylbenzene  
 2,4-Dichlorophenoxyacetic acid  
 2,4-Dichlorophenoxyacetic acid  
 2,4-Dichlorophenoxyacetic acid

8 fl oz 236 ml

# HARTZ

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

For control on dogs and cats of fleas, lice and ticks, including the Deer Tick which may carry Lyme Disease, dilute 2 ounces of Dip with 1 gallon of water. Dip animal into solution, or sponge solution on, making sure hair is thoroughly wet to the skin. The area around the ears should be sponged thoroughly. Avoid contact of material with eyes and mouth of animal. Do not rinse. Towel dry. Repeat as necessary for control.

### STORAGE AND DISPOSAL:

**Storage:** Store in a cool place, away from heat or open flame.  
**Disposal:** Do not reuse empty container. Wrap container and put in trash collection. Do not contaminate water, food or feed stuffs by storage or disposal of this concentrate or dip.

### PRECAUTIONARY STATEMENTS

#### HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

**CAUTION:** Avoid contact with eyes. It is a good practice to wash thoroughly with soap and water after handling any pesticide. It is inadvisable to use this or similar pesticides on puppies and kittens under 6 weeks of age.

#### ENVIRONMENTAL HAZARDS:

Toxic to fish. Do not contaminate water when disposing of dip solution.

### (IMPORTANT INFORMATION)

#### THE ABC'S OF FLEA AND TICK CONTROL

(Control products are designed to work together in a complete insecticidal system. For total control of fleas and ticks, it is necessary to treat not only the pet but also its surrounding environment. Use Control products to follow these simple ABC's for control of fleas and ticks on your pet and around your home.)

(Step A - TREAT YOUR PET with one of our on-animal products such as Conditioning Shampoo Dip, Powder or Spray. Use a Control product containing viGRen<sup>®</sup>, an Insect Growth Regulator (I.G.R.), to also stop hatching flea eggs from developing into biting adults.)

(Step B - PROTECT YOUR PET with a Control repellent or flea and tick collar to keep fleas and ticks from reinfesting your pet. The Control collar with viGRen<sup>®</sup> IGR will also prevent flea eggs from hatching.)

(Step C - TREAT YOUR HOME, both indoors and outdoors, with Control home spray or fogger with viGRen<sup>®</sup> IGR, and Control yard spray to protect your entire home and guard against reinfestation.)

(Be sure to read full directions and precautions on the label of each product you use.)
