Mr. William Perlberg
Vice President, Research & Development
The Hartz Mountain Corporation
700 South Fourth St.
Harrison, NJ 07029-9987

Dear Mr. Perlberg,

Subject: Revised Labeling and Confidential Statement of Formula
Hartz Flea & Tick Repellent for Dogs III
EPA Registration Number 2596-121
Hartz Flea & Tick Repellent for Cats III
EPA Registration Number 2596-120
Your Submissions Dated January 6, and January 7, 1992

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable, provided that you make the labeling changes listed below before you release the product for shipment bearing the amended labeling:

In the above letters, item B, you indicate that the nominal concentration for esfenvalerate is 0.025%, yet the lower certified limit is 0.027. Note that the nominal concentration should be a value between the upper and lower certified limits, not less than the lower certified limit; in addition, the upper and lower certified limits should be based on the pure active ingredient rather than the technical or concentrate. Please adjust the label or Confidential Statement of Formula accordingly.

Submit five copies of your final printed labeling before you release the product for shipment.

A stamped copy of the labeling is enclosed for your records.

Sincerely,

George T. LaRocca
Product Manager (13)
Insecticide-Rodenticide Branch
Registration Division (H7505C)

INERT INGREDIENTS 95.985%
100.000%

EPA Reg No 2596-120 EPA Est No (M)13891-IN-1
(MR)11715 TN 1 (MV)33764-CA 1
See code on bottom of can
US Patent Nos. 4,062,968 (Lic. Sumitomo Chem. Co.) 4,547,360

Keep out of reach of children
Net Wt 7oz 1.98g

CAUTION
See back panel for cautions.

• repels and kills fleas • repels and kills ticks including the Deer Tick, carrier of Lyme Disease • repels mosquitoes • helps effectively reduce flea and tick infestations which reduces itching and scratching

Hartz Flea and Tick Repellent prevents these pests from actually living on your cat. In laboratory and field tests, animals treated with this spray repelled fleas and ticks for up to 21 days. In areas of extremely heavy infestations, it may be necessary to spray more frequently. This spray may also be used on pets infested with fleas or ticks in order to kill these parasites within several hours.

DICTIONS FOR USE

If is a violation of Federal law to use this product in a manner inconsistent with its labeling.
To repel fleas and ticks, hold container 6 to 10 inches from animal and spray over entire body, including feet and tail. Do not spray in eyes. Apply lightly. Do not saturate animal's coat. Spray approximately two seconds for each pound of pet's body weight. For best results, direct spray against the natural lay of the fur to cause fluffing of the coat. Do not apply more often than every seven days. In periods of

heavy infestations, occasional fleas or ticks may be seen on the animal. For added protection, treat animal's bedding, quarters and surrounding area should also be sprayed lightly until damp to help prevent reinfestation. For continuous control, use Hartz 2 in 1 Collar on your pet in addition to use of this spray. Do not expose your cat to other pet, household insecticides when using product.

STORAGE AND DISPOSAL—Do not contaminate water, food or feed. Wash empty container and put in trash. Do not puncture or incinerate container.

PRECAUTIONARY STATEMENTS
Hazards to Humans & Domestic Animals

CAUTION. Apply spray in a well ventilated area. Avoid inhalation of spray. Avoid spraying in eyes. Do not use on animal until spray has dried. It is good practice to wash hands after use. Do not use on pregnant or young (less than one year old) cats. Do not use this or any other pesticide on sick, injured or debilitated pets. Some animals may be sensitive to ingredients in this or other pesticide products. Precautions should be observed following treatment. If any unusual symptoms occur, immediately bathe pet with a non-pesticidal shampoo. If symptoms do not subside within one hour, consult your veterinarian.

Physical or Chemical Hazards: Contents under pressure. Do not store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130 F may cause bursting.

STATEMENT OF PRACTICAL TREATMENT: If in eyes: Rinse eyes with plenty of water. Call a physician if irritation persists.
