Hartz Mountain Corp  
400 Plaza Drive  
Secaucus, New Jersey 07094

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document(s), EPA has reregistered the product listed above. Enclosed is a copy of your label stamped Accepted. This action is taken under the authority of section 4(g)(2)(c) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Signature of Approving Official:

George LaRocca  
Insecticide Branch  
Registration Division (7505C)

Date:

You must make the following labeling changes:

1. Your product is required to have a "Note to Physicians and Veterinarians". This should be located directly below your First Aid Statement and should contain the following information:
  - Technical information on symptomatology;
  - Use of supportive treatments to maintain life functions;
  - Medicine that will counteract the specific physiological effects of the pesticide;
  - Company telephone number to specific medical personnel who can provide specialized medical advice.
  - Information for veterinarians.
  
2. Delete the last sentence under Precautionary Statements regarding flea and tick collars. This statement is appropriate when a flea collar is replaced with another flea collar not a spray.

Enclosed is a copy of your label stamped "Accepted with Comments". Please submit two (2) copies of your final printed labeling before releasing your product for shipment. Please refer to the A-79 enclosure for further description of final printed labeling. Should you have any questions, you may contact Leonard Cole directly at 703.305.5412.

Sincerely,

George T. LaRocca

ACCEPTED  
with COMMENTS  
in EPA Letter Dated

SEP 14 1999

Under the Federal Insecticide, Fungicide, and Herbicide Act as amended, the following registered trademark number is listed: 2596-122

# BACK PANEL

Kills fleas and ticks, Including the Deer Tick,  
which may carry LYME DISEASE

- Conditioning Formula • Kills lice when a problem • Fast acting • Deodorant • Unaffected by water
- Kills insects which reduces incidence of itching and scratching • Contains no CFC's or other ozone depleting substances. Federal regulations prohibit CFC propellants in aerosols

## READ ENTIRE LABEL BEFORE EACH USE USE ONLY ON DOGS

**DIRECTIONS:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**SHAKE WELL BEFORE USE.** To kill fleas, ticks and lice, thereby reducing incidence of itching and scratching, hold container 6 to 10 inches from the animal and spray lightly over the entire body. Do not spray in eyes. For best penetration of spray to the skin, direct spray against the natural lay of the hair to cause fluffing of the coat. In addition to controlling fleas and ticks, this product leaves your pet's coat soft, glossy and manageable.

Under normal circumstances, repeat spray once every few days until infestation is brought under control, then repeat as necessary. For more prolonged flea & tick control, the animal's bedding, quarters, and surrounding area should also be sprayed lightly until damp to help prevent reinfestation.

**Storage and Disposal:** Store at Room Temperature. Do not contaminate water, food or feed by storage and disposal. Wrap empty container and put in trash collection.

### PRECAUTIONARY STATEMENTS: Hazards to Humans & Domestic Animals.

**CAUTION:** Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash hands and exposed skin thoroughly with soap and water after handling. It is not advisable to use this product or similar pesticides on puppies less than 6 weeks of age. Consult a veterinarian before using this product on debilitated, aged or medicated animals. Sensitivity may occur after using ANY pesticide product for pets. If signs of sensitivity occur bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

**Physical or Chemical Hazards:** Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

**STATEMENT OF PRACTICAL TREATMENT:** If in Eyes: Rinse eyes with plenty of water. Call a physician if irritation persists.
