- Deodorant
- Unaffected by water
- Kills insects which reduces incidence of itching and scratching
- Contains no CFC's or other ozone depleting substances. Federal regulations prohibit CFC propellants in aerosols.

READ ENTIRE LABEL BEFORE EACH USE / USE ONLY ON CATS

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USE: To kill fleas, ticks and lice, thereby reducing incidence of itching and scratching, hold container 6 to 10 inches from the animal and spray lightly over the entire body. Do not spray in eyes. For best penetration of spray to the skin, direct spray against the natural lay of the hair to cause fluffing of the coat. In addition to controlling fleas and ticks, this product leaves your pet's coat soft, glossy and manageable.

Under normal circumstances, repeat spray once a week until infestation is brought under control. For more prolonged flea & tick control, the animal's bedding, quarters, and surrounding area should also be sprayed lightly until damp to help prevent reinfestation.

Storage and Disposal: Do not contaminate water, food or feed by storage and disposal. Wrap empty container and put in trash collection.

PRECAUTIONARY STATEMENTS: Hazards to Humans & Domestic Animals: CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash hands and exposed skin thoroughly with soap and water after handling. Do not use on kittens under 12 weeks of age. Consult a veterinarian before using this product on debilitated, aged, medicated, pregnant or nursing animals. Sensitivity may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Do not use this product on animals simultaneously or within 30 days before or after treatment with or exposure to cholinesterase inhibiting drugs, pesticides, or chemicals. However, flea & tick collars may be immediately replaced.

Physical or Chemical Hazards: Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130° F may cause bursting.

FIRST AID: If in Eyes: Rinse eyes with plenty of water. Call a physician if irritation persists.
