USE ONLY ON DOGS (CATS).

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals:

CAUTION: Do not let children or pets play with this product. Consult a veterinarian before using this product on debilitated, aged, pregnant or nursing or medicated animals. Sensitivity may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

Environmental Hazards: Do not contaminate lakes or streams by disposal of waste water.

**ACCEPTED
with COMMENTS
In EPA Letter Dated:**

MAY - 7 2003
Under the Federal Insecticide,
Fungicide, and Rodenticide Act,
as amended, for the pesticide
registered under EPA Reg. No.
2576-124

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not use on puppies (kittens) less than 12 weeks of age.

(Note to reviewer: See multiple selections of direction statements below. One statement will be used per label.)

(Direction Statement # 1 - when product is packaged as a standard shampoo)
To kill fleas, lice and ticks, including the Deer Tick, which may carry Lyme Disease, wet pet's (cat's)(dog's) coat thoroughly with water and rub shampoo into coat starting with head. Work backward until coat is completely covered with foamy lather. Let lather stay on 5 minutes, then rinse and towel dry. Repeat weekly (if necessary).

OR

(Direction Statement #2 - when product is packaged with a hose end sprayer)

- 1) Make sure water control knob on hose sprayer is in the "OFF" position.
- 2.) Hold (the product) by handle and shake gently, turning bottle as you shake it.
- 3.) Attach hose to spray nozzle.
- 4) Bend safety tab down and turn control to "WATER" position.
- 5) Slowly turn on the water supply to any appropriate flow rate and pre-dampen the entire dog (animal)(cat).
- 6) Turn the control knob to the "ON" position (shampoo will automatically begin to mix with the water).
- 7) Apply the shampoo starting with the head [be careful not to spray in the dog's (cat' s) eyes] and work backwards until the coat is completely covered with shampoo.
- 8) Turn the sprayer to the "OFF" position and rub the shampoo into the coat with your hands so that a foamy lather is produced.
- 9) Turn the spray nozzle to the "WATER" position and thoroughly rinse the animal (cat)(dog).
- 10) Turn the spray nozzle to the "OFF" position and disconnect from the hose for storage.

It is recommended that the pet's bedding or sleeping quarters be treated for flea and tick control with a product registered for this use, such as (Control Pet Care System® Home Flea & Tick Killer).

DISPOSAL: **If empty:** Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

Remember to always read each product label and follow the directions carefully.

Important Information: The ABC's of Flea & Tick Management

Step A Treat Your Pet

Control Pet Care System® products are designed to work together in a complete insecticidal system. For elimination of fleas and ticks, it is necessary to treat not only the pet but also its surrounding environment. Use Control Pet Care System® products and follow these simple ABC's to get rid of fleas and ticks on your pet and around your home.

Step A Treat Your Pet (with one of the Control Pet Care System® on animal products such as Conditioning Shampoo, Dip or Spray) to kill fleas and ticks living on your pet.

Step B Protect Your Pet (with a Control Pet Care System® Repellent or Ultimate Flea Collar™ with Rabon and vIGRen®) to keep fleas and ticks from re-infesting your pet. (The Control Pet Care System® Ultimate Flea Collar™ will also prevent flea eggs from hatching.)

Step C Treat Your Home both indoors and outdoors, (with Control Pet Care System® Home Spray Killer or Fogger with vIGRen® and Control Pet Care System® Yard and Kennel Spray) to protect your entire home and guard against re-infestation. (The Control Pet Care System® Flea Trap will also serve to help break the flea life cycle by killing fleas in hard to reach areas in your home.)

A - Treat Your Pet to kill fleas and ticks living on your pet.

B - Protect Your Pet to keep fleas and ticks from re-infesting your pet.

C - Treat your Home both indoors and outdoors, to protect your entire home and guard against re-infestation.
