BACK PANEL

- Fast Acting, Deodorizing Formula
- Fine Mist Spray
- Kills and Repels Fleas and Ticks
- Kills the Deer Tick which may carry Lyme Disease

Hartz 2 in 1 Flea & Tick Spray for Cats and Dogs prevents fleas and ticks from actually living on your pet. This spray may also be used to **kill** any fleas and ticks already on your cat. Once sprayed, fleas will be killed within 5 to 10 minutes. In addition to controlling fleas and ticks, this product leaves your pet's coat soft, glossy, and manageable.

**READ ENTIRE LABEL BEFORE EACH USE
USE ONLY ON DOGS AND CATS**

DIRECTIONS FOR USE: It is a violation of Federal Law in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USE

1. Hold bottle upright 6 inches from pet. Direct spray towards pet and spray entire coat pressing dispenser with quick short strokes. Move bottle to get even coverage of coat (until tips of hair are moist).
2. Apply lightly and rub into animal's coat. For long haired cats, ruffle hair for spray to reach skin.
3. Ticks are tough - spray directly.
4. After 10 minutes, dry coat with towel.
5. Comb and brush coat.
6. Repeat once a week.

Storage and Disposal: Do not re-use empty container. Wrap container trash collection. Do not contaminate water, food or feed by storage and disposal.

PRECAUTIONARY STATEMENTS: Hazards to Humans and Domestic Animals

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash hands and exposed skin thoroughly with soap and water after handling. Consult a veterinarian before using this product on debilitated, aged or medicated dogs or cats, or pregnant or nursing cats. If used on pregnant or nursing dogs, do not retreat until the puppies are at least 6 weeks old. Sensitivity may occur after using ANY pesticide product for pets. If signs of sensitivity occur bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Do not use near birds, fish or foodstuffs. Do not use on kittens under 12 weeks of age, or puppies under 6 weeks of age. Do not use this product on animals simultaneously or within 30 days before or after treatment with or exposure to cholinesterase inhibiting drugs, pesticides, or chemicals. However, flea and tick collars may be immediately replaced.

FIRST AID: If in Eyes: Flush with plenty of water, call a physician if irritation persists.

IMPORTANT INFORMATION THE ABC's of Flea and Tick Control

B - Protect your Pet

Control products are designed to work together in a complete insecticidal system. For total control of fleas and ticks, it is necessary to treat not only the pet but also its surrounding environment. Use Control products to follow these simple ABC's for control of fleas and ticks on your pet and around your home.)

Step A - TREAT YOUR PET with one of the Control on-animal products such as Conditioning Shampoo, Dip, Powder or Spray. Use a Control product containing vIGRen®, an Insect Growth Regulator (I.G.R.), to also stop hatching flea eggs from developing into biting adults.

Step B - PROTECT YOUR PET with a Control repellent or flea and tick collar to keep fleas and ticks from reinfesting your pet. The Control Pet Care System Ultimate Flea Collar™ with vIGRen® IGR will also prevent flea eggs from hatching.

Step C - TREAT YOUR HOME, both indoors and outdoors, with Control Pet Care System Home Flea & Tick Killer or Fogger with vIGRen and Control Pet Care System Yard and Kennel Spray to protect your entire home and guard against reinfestation. The Control Pet Care System Flea Trap will also serve to help break the flea life cycle by killing fleas in hard-to-reach areas in your home.

Be sure to read full directions and precautions on the label of each product you use.
