**READ ENTIRE LABEL BEFORE EACH USE
USE ONLY ON CATS OR DOGS**

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash hands and exposed skin thoroughly with soap and water after handling.

Consult a veterinarian before using this product on debilitated, aged or medicated dogs or cats, or pregnant or nursing cats. If used on pregnant or nursing dogs, do not retreat until the puppies are at least 6 weeks old.

Sensitivity may occur after using ANY pesticide product for pets. If signs of sensitivity occur, consult a veterinarian immediately. Do not use near birds, fish or foodstuffs. **Do not use on kittens under 12 weeks of age, or puppies under 6 weeks of age.** Do not use this product simultaneously or within 30 days before or after treatment with or exposure to cholinesterase inhibiting drugs, pesticides, or chemicals. However, flea and tick collars may be immediately replaced.

FIRST AID
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
Contains an organophosphate that inhibits cholinesterase.
IF SWALLOWED:
<ul style="list-style-type: none"> • Call a Poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give anything by mouth to an unconscious person.
IF ON SKIN OR CLOTHING:
<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a Poison control center or doctor for treatment advice.
IF IN EYES:
<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
Note to Physicians and Veterinarians: This product contains an organophosphate and may cause cholinesterase inhibition. Cholinergic symptoms may include salivation, miosis, incoordination, muscle fasciculation and/or weakness, vomiting and diarrhea. Atropine is antidotal. 2-PAM may be effective as an adjunct to atropine. Call (The Hartz Mountain Corporation at) 1-800-275-1414 or your local poison control center for further information.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Application Instructions

SHAKE WELL BEFORE USE

1. Hold bottle upright 6 inches from pet. Direct spray toward pet and spray entire coat, pressing dispenser with quick, short strokes. Move bottle to get even coverage of coat (until tips of hair are moist).
2. Apply lightly and rub into animal's coat. For long-haired pets, ruffle hair for spray to reach skin.
3. Recommended dosage:
For Dogs: Spray 25-30 strokes for a small dog (e.g., Terrier). Spray 30-40 strokes for a medium dog (e.g., Spaniel). Spray 40-70 strokes for a large dog (e.g., Labrador).
For Cats: Spray 15-25 strokes for a small cat. Spray 25-35 strokes for a large cat.
More spray may be needed for long-haired dogs or cats.
4. Ticks are tough—spray directly.
5. After 10 minutes, dry pet with towel.
6. Comb and brush coat.
7. Repeat once a week. Use on bedding and other areas as needed.

STORAGE AND DISPOSAL

Storage: Store at room temperature.

Disposal: Do not reuse this container. If empty: Place in trash or offer for recycling if available. If partly filled: Call your solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

For more information (about flea and tick problems) (and how to solve them) (or help at any step), (or in case of emergency) (or for help during any step) call our flea and tick experts at 1-800-275-1414 weekdays, 9am-5pm (Eastern Standard Time)(E.S.T).

- Remember to always read each product label and follow the directions carefully.

Important Information: The ABC's of Flea & Tick Control:

B—Protect your pet

Control Pet Care System (alternate brand) products are designed to work together in a complete insecticidal system. For elimination of fleas and ticks, it is necessary to treat not only the pet but also its surrounding environment. Use Control Pet Care System (alternate brand) products and follow these simple ABC's to get rid of fleas and ticks on your pet and around your home.

Step A—Treat Your Pet with one of the (brand) on-animal products such as conditioning shampoo, dip, or spray to kill fleas and ticks living on your pet.

Step B—Protect Your Pet with a (brand) repellent or (brand) flea collar to keep fleas and ticks from re-infesting your pet. The (brand) collar will also prevent flea eggs from hatching.

Step C—Treat Your Home, both indoors and outdoors, with (brand) Home Spray Killer or Fogger (alternate brand names) and (brand) Yard and Kennel Spray (alternate brand) to protect your entire home and guard against reinfestation.

6/6

The Stress-Free System for Eliminating Fleas & Ticks

On Animal Protection

Relief for your pet

Use (brand) conditioning shampoo, dip, spray or powder to kill fleas and ticks living on your pet.

Repellent

Keep fleas and ticks off your pet

Prevent any more fleas and ticks from coming onto your pet by spraying your pet with (brand) repellent for dogs or repellent for cats.

Continuous Protection

Long-term protection for your pet

Keep fleas and ticks from reinfesting your pet with (brand) 7 month flea & flea egg collar (alternate brand) with methoprene, which will prevent flea eggs from hatching and Rabon to kill adult fleas and ticks.

Home & Yard

Protect your home and yard

Kill fleas and ticks around your home with (brand) carpet powder, yard and kennel spray, home flea & tick killer and home fogger.
