READ ENTIRE LABEL BEFORE EACH USE
USE ONLY ON DOGS (CATS) (DOGS and CATS)

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling (and before eating, drinking, chewing gum, or using tobacco).

FIRST AID

Contains an organophosphate that inhibits cholinesterase.

IF SWALLOWED: Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment.

Note to Physicians and Veterinarians: This product contains an organophosphate and may cause cholinesterase inhibition. Cholinergic symptoms may include salivation, miosis, incoordination, muscle fasciculation and/or weakness, vomiting and diarrhea. Atropine is antidotal. 2-PAM may be effective as an adjunct to atropine. Call (The Hartz Mountain Corporation at) 1-800-275-1414 or your local Poison Control Center for further information.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

REMOVE COLLAR FROM PACKAGE, UNROLL AND STRETCH TO ACTIVATE INSECTICIDE GENERATOR. As the collar begins to work, a fine white powder will appear on the surface.

Do not use on (puppies under 6 weeks old) (kittens under 12 weeks old). Do not unroll collar until ready to use. Place the (Hartz® Rabon® Collar with Methoprene) (alternate brand name) (collar) around the (dog's)(puppy's)(dog's or puppy's) (cat's)(kitten's)(cat's or kitten's) neck, adjust for proper fit, and buckle in place. The collar must be worn loosely to allow for growth of the cat (dog) (animal) and to permit the collar to move around (about) the neck. (Generally,) a properly fitted collar is one that, when fastened, will snugly slide over the pet's head. Leave 2 or 3 inches on the collar for extra adjustment and cut off and dispose of the extra length.

5/11

Consult a veterinarian before using this product on debilitated, aged, or medicated animals. If used on pregnant or nursing (dogs)(cats), do not replace collar until the (puppies are at least 6 weeks old)(kittens are at least 12 weeks old).

Sensitivity may occur after using ANY pesticide product for pets. Some animals may become irritated by any collar if it is applied too tightly. If this occurs, loosen the collar. If irritation continues, remove the collar from the animal. If signs of sensitivity occur, (remove the collar and) bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Do not use this product on animals simultaneously or within 30 days before or after treatment with or exposure to cholinesterase inhibiting drugs, pesticides, or (similar) chemicals. However, flea and tick collars may be immediately replaced (with new collars).

This collar is intended for use only as an insecticide/IGR generator.

The collar will begin to kill fleas, ticks and flea eggs and larvae immediately. Its full protection against harder to kill ticks will be built up within a few days after being placed on the pet. For continuous (flea and tick) protection under normal conditions replace the collar every seven months. Under conditions where pets are exposed to severe flea and tick infestations, it may be necessary to replace the collar more frequently.

Wetting will not impair the collar's effectiveness or the pet's protection. If the pet goes swimming or is out in the rain it is not necessary to remove the collar. The (Hartz® Rabon® Collar with Methoprene) (alternate brand name) may be worn with a regular collar.

STORAGE AND DISPOSAL

Storage: Store at room temperature.

Disposal: Do not (re)use empty pouch. Place in trash or offer for recycling if available.

For more information (about flea and tick problems) (and how to solve them) (or help at any step), (or in case of emergency) (or for help during any step) call (our flea and tick experts at) 1-800-275-1414 weekdays, 9am-5pm (Eastern Standard Time)(E.S.T).

OPTIONAL/ALTERNATE LABEL TEXT

7 month flea and tick collar
Kills fleas and ticks
Kills for 7 months
Kills fleas, ticks & flea eggs (for 7 months)
7 months protection
Continuous protection
Dual action
Revolutionary technology

Contains an adulticide
With Rabon
Kills adult fleas
Kills adult ticks

Contains an insect growth regulator
Contains PRECOR insect growth regulator
With vIGRen
Plus IGR
Prevents flea eggs from hatching (for 7 months)
Kills (flea) eggs before they hatch
Kills flea eggs (and larvae)
Kills hatching eggs
Kills all stages of the flea life cycle
Stops the flea and tick life cycle

Kills the Deer tick, which may carry Lyme disease
Kills the Rocky Mountain wood tick, which may carry Rocky Mountain Spotted Fever
The Hartz® Rabon® Collar with Methoprene) (alternate brand name) contains(both) (an insecticide to kill adult fleas and ticks and an insect growth regulator [vIGRen] to kill flea eggs before they hatch) (a powerful, effective insecticide which kills adult fleas and ticks, and a long-lasting insect growth regulator which prevents flea eggs and larvae from maturing into adults).

Adult fleas spend virtually all of their time on your pet and develop in the environment. Once fleas are apparent on your pet, there is already an infestation of their pre-adult stages in your home.

Normal insecticides will not kill (the) flea eggs.
(But) the Hartz® Rabon® Collar with Methoprene) (alternate brand name) is designed to kill both the adult flea and its eggs and larvae, thereby breaking the flea life cycle.
The collar will (also) break the tick life cycle by killing adult ticks, including the Deer tick, which may carry Lyme disease, and the Rocky Mountain wood tick, which may carry Rocky Mountain Spotted Fever.

Hartz® Rabon® Collar with Methoprene

Step B Protect Your Pet

Important Information: The A B C's of Flea and Tick Control (Management)

Control Pet Care System® (alternate brand) products are designed to work together in a complete insecticidal system. For control of fleas and ticks, it is necessary to treat not only the pet but also its surrounding environment. Use Control Pet Care System® (alternate brand) and follow these simple ABC's to get rid of fleas and ticks on your pet and around your home

(Step A) Treat Your Pet (with one of the Control Pet Care System® (alternate brand) on-animal products such as Conditioning Shampoo, Dip or Spray) to kill fleas and ticks living on your pet. (Use a Control Pet Care System® (alternate brand) product containing vlGRen, an insect growth regulator (IGR) to also stop hatching flea eggs from developing into biting adults.)

(Step B) Protect Your Pet with a Control Pet Care System® (alternate brand) Repellent or flea and tick collar to keep fleas and ticks from re-infesting your pet (and prevent flea eggs from hatching). (The Hartz Rabon Collar with Methoprene (alternate brand) will also prevent flea eggs from hatching).

Important Information About Flea Control

To minimize flea infestation, it is necessary to treat not only your pets, but also their surrounding environment. Zodiac products containing PRECOR Insect Growth Regulator and an adulticide have been formulated to work together. For best results, simply follow these four easy steps:

- Step 1 Shampoo, mousse or dip your pet
 - A shampoo, mousse or dip will kill biting adult fleas on your pet
 - Zodiac Fleatrol products in Step 1 kill fleas and flea eggs with a combination of PRECOR insect Growth Regulator and an adulticide

- Step 2 Place a collar on your pet
 - A Zodiac collar will provide long-lasting protection
 - This collar kills flea eggs and biting adult fleas

- Step 3 Treat the areas your pet frequents
 - Use a Zodiac aerosol, fogger or spray to kill adult fleas and flea larvae in your home. Zodiac Fleatrol products in Step 3 kill adult fleas and flea eggs with a combination of PRECOR insect Growth regulator and an adulticide. The Zodiac Fleatrol Yard Spray Concentrate kills flea larvae in your yard
 - Follow individual product directions to kill additional fleas which later emerge from protected cocoons.

- Step 4 Maintain your flea-free pet
 - Use Zodiac on-animal spray to kill fleas your pet picks up on outings
 - Zodiac Fleatrol products in Step 4 kill adult fleas and flea eggs using a combination of PRECOR Insect Growth Regulator and an adulticide

For Best Results—Follow these steps in order
Be sure to read full directions and precautions on the label of each product that you use.

**Subject: Notification of Optional Marketing Text
Hartz® Rabon® Collar with Methoprene
EPA Reg. No. 2596-139**

Dear Sir or Madam:

In accordance with PR Notice 98-10, please find enclosed a completed notification application (Form 8570-1) and one highlighted copy of revised labeling for the subject product. The following statement has been added to the label: "Reflects direct light up to 450' away for an added dimension of nighttime safety."

As we would like to be informed of the acceptability of this notification, a self-addressed EPA "acceptable notification" business reply mail postcard is enclosed.

If you have any questions concerning this submission, please do not hesitate to contact me at (201) 271-4800 ext. 7408, or by email at mdickson@hartz.com.

Sincerely,

Margaret W. Dickson
Regulatory Affairs Associate
