JUL 20 2007

JUL 20 2007

Robert Rosenwasser
Director, Regulatory Affairs
The Hartz Mountain Corporation
400 Plaza Drive
Secaucus, NJ 07094-3688

SUBJECT: Applications for Pesticide Notification – Add Optional Marketing Statements
Hartz® Rabon Collar with Methoprene ✓ EPA Reg. No. 2596-139
Applications Dated June 13 and 20, 2007
Hartz® Ref #118 EPA Reg. No. 2596-150
Application Dated June 13, 2007

Dear Mr. Rosenwasser:

The Agency is in receipt of your Applications for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above products. The Registration Division (RD) has conducted a review of these requests for their applicability under PRN 98-10 and finds that the actions requested fall within the scope of PRN 98-10. The labels submitted with the applications have been stamped "Notification" and will be placed in our records.

If you have any questions, please contact me directly at 703-305-6249 or Terri Stowe of my staff at 703-305-6117.

Sincerely,

A handwritten signature in black ink, appearing to read "Linda Arrington".

NOTIFICATION

JUL 20 2007

Attention: Mr. Richard Gebken (PM # 10)
RE: HARTZ Rabon Collar with Methoprene
EPA Reg. No. 2596-139
Addition of optional marketing statements per PR Notice 98-10

Dear Mr. Gebken:

The Hartz Mountain Corporation, 400 Plaza Drive, Secaucus, NJ 07094-3688 is filing this notification to add new optional marketing statements for the product.

The Hartz Mountain Corporation is submitting the following information:

- A completed application (EPA Form 8570-1) and;
- Three copies of the proposed notification label.

"This notice is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR §152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA."

If you have any questions or need additional information, please feel free to contact me at (201) 271-4800, ext. 7202 or <mailto:rosenwasser@hartz.com>.

Sincerely,

Robert Rosenwasser
Director, Regulatory Affairs

**READ ENTIRE LABEL BEFORE EACH USE
USE ONLY ON DOGS (CATS) (DOGS and CATS)**

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling (and before eating, drinking, chewing gum, or using tobacco).

FIRST AID

Contains an organophosphate that inhibits cholinesterase.

IF SWALLOWED: Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment.

Note to Physicians and Veterinarians: This product contains an organophosphate and may cause cholinesterase inhibition. Cholinergic symptoms may include salivation, miosis, incoordination, muscle fasciculation and/or weakness, vomiting and diarrhea. Atropine is antidotal. 2-PAM may be effective as an adjunct to atropine. Call (The Hartz Mountain Corporation at) 1-800-275-1414 or your local Poison Control Center for further information.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

REMOVE COLLAR FROM PACKAGE, UNROLL AND STRETCH TO ACTIVATE INSECTICIDE GENERATOR. As the collar begins to work, a fine white powder will appear on the surface.

Do not use on (puppies under 6 weeks old) (kittens under 12 weeks old). Do not unroll collar until ready to use. Place the (Hartz® Rabon® Collar with Methoprene) (alternate brand name) (collar) around the (dog's)(puppy's)(dog's or puppy's) (cat's)(kitten's)(cat's or kitten's) neck, adjust for proper fit, and buckle in place. The collar must be worn loosely to allow for growth of the (cat) (dog) (animal) and to permit the collar to move around (about) the neck. (Generally,) a properly fitted collar is one that, when fastened, will snugly slide over the pet's head. Leave 2 or 3 inches on the collar for extra adjustment and cut off and dispose of the extra length.

7/13

Consult a veterinarian before using this product on debilitated, aged, or medicated animals. If used on pregnant or nursing (dogs)(cats), do not replace collar until the (puppies are at least 6 weeks old)(kittens are at least 12 weeks old).

Sensitivity may occur after using ANY pesticide product for pets. Some animals may become irritated by any collar if it is applied too tightly. If this occurs, loosen the collar. If irritation continues, remove the collar from the animal. If signs of sensitivity occur, (remove the collar and) bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Do not use this product on animals simultaneously or within 30 days before or after treatment with or exposure to cholinesterase inhibiting drugs, pesticides, or (similar) chemicals. However, flea and tick collars may be immediately replaced (with new collars).

This collar is intended for use only as an insecticide/IGR generator. The collar will begin to kill fleas, ticks and flea eggs and larvae immediately. Its full protection against harder to kill ticks will be built up within a few days after being placed on the pet. For continuous (flea and tick) protection under normal conditions replace the collar every seven months. Under conditions where pets are exposed to severe flea and tick infestations, it may be necessary to replace the collar more frequently.

Wetting will not impair the collar's effectiveness or the pet's protection. If the pet goes swimming or is out in the rain it is not necessary to remove the collar. The (Hartz® Rabon® Collar with Methoprene) (alternate brand name) may be worn with a regular collar.

STORAGE AND DISPOSAL

Storage: Store at room temperature.

Disposal: Do not (re)use empty pouch. Place in trash or offer for recycling if available.

For more information (about flea and tick problems) (and how to solve them) (or help at any step), (or in case of emergency) (or for help during any step) call our flea and tick experts at 1-800-275-1414 weekdays, 9am-5pm (Eastern Standard Time)(E.S.T).

Contains PRECOR insect growth regulator

With vIGRen

Plus IGR

Prevents flea eggs from hatching (for 7 months)

Kills (flea) eggs before they hatch

Kills flea eggs (and larvae)

Kills hatching eggs

Kills all stages of the flea life cycle

Stops the flea and tick life cycle

Kills the Deer tick, which may carry Lyme disease

Kills the Rocky Mountain wood tick, which may carry Rocky Mountain Spotted fever

The Hartz® Rabon® Collar with Methoprene) (alternate brand name) contains(both) (an insecticide to kill adult fleas and ticks and an insect growth regulator [vIGRen] to kill flea eggs before they hatch) (a powerful, effective insecticide which kills adult fleas and ticks, and a long-lasting insect growth regulator which prevents flea eggs and larvae from maturing into adults).

Adult fleas spend virtually all of their time on your pet and develop in the environment.

Once fleas are apparent on your pet, there is already an infestation of their pre-adult stages in your home.

Normal insecticides will not kill (the) flea eggs.

(But) the Hartz® Rabon® Collar with Methoprene) (alternate brand name) is designed to kill both the adult flea and its eggs and larvae, thereby breaking the flea life cycle.

The collar will (also) break the tick life cycle by killing adult ticks, including the Deer tick, which may carry Lyme disease, and the Rocky Mountain wood tick, which may carry Rocky Mountain Spotted Fever.

EASY ACTIVATION - To activate collar, hold at each end... **STRETCH**... (remove paper cover from [reflecting][reflective] strip...) and it's ready for your (cat)(kitten)(dog)(puppy) to wear.

To activate collar, hold at each end...STRETCH...it's ready to work

Important Information About Flea Control

To minimize flea infestation, it is necessary to treat not only your pets, but also their surrounding environment. Zodiac products containing PRECOR Insect Growth Regulator and an adulticide have been formulated to work together. For best results, simply follow these four easy steps:

Step 1 Shampoo, mousse or dip your pet

- A shampoo, mousse or dip will kill biting adult fleas on your pet
- Zodiac Fleatrol products in Step 1 kill fleas and flea eggs with a combination of PRECOR insect Growth Regulator and an adulticide

Step 2 Place a collar on your pet

- A Zodiac collar will provide long-lasting protection
- This collar kills flea eggs and biting adult fleas

Step 3 Treat the areas your pet frequents

- Use a Zodiac aerosol, fogger or spray to kill adult fleas and flea larvae in your home. Zodiac Fleatrol products in Step 3 kill adult fleas and flea eggs with a combination of PRECOR insect Growth regulator and an adulticide. The Zodiac Fleatrol Yard Spray Concentrate kills flea larvae in your yard
- Follow individual product directions to kill additional fleas which later emerge from protected cocoons.

Step 4 Maintain your flea-free pet

- Use Zodiac on-animal spray to kill fleas your pet picks up on outings
- Zodiac Fleatrol products in Step 4 kill adult fleas and flea eggs using a combination of PRECOR Insect Growth Regulator and an adulticide

For Best Results—Follow these steps in order

Be sure to read full directions and precautions on the label of each product that you use.

NOTIFICATION
JUL 20 2007

Attention: Mr. Richard Gebken (PM # 10)
RE: HARTZ Rabon Collar with Methoprene
EPA Reg. No. 2596-139
Addition of optional marketing statements per PR Notice 98-10

Dear Mr. Gebken:

The Hartz Mountain Corporation, 400 Plaza Drive, Secaucus, NJ 07094-3688 is filing this notification to add new optional marketing statements for the product.

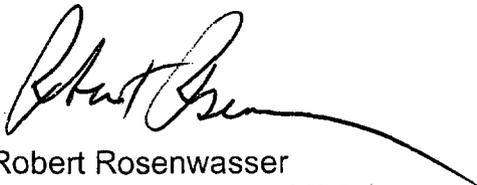

The Hartz Mountain Corporation is submitting the following information:

- A completed application (EPA Form 8570-1) and;
- Three copies of the proposed notification label.

"This notice is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR §152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA."

If you have any questions or need additional information, please feel free to contact me at (201) 271-4800, ext. 7202 or <mailto:rosenwasser@hartz.com>.

Sincerely,

Robert Rosenwasser
Director, Regulatory Affairs

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling (and before eating, drinking, chewing gum, or using tobacco).

FIRST AID

Contains an organophosphate that inhibits cholinesterase.

IF SWALLOWED: Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment.

Note to Physicians and Veterinarians: This product contains an organophosphate and may cause cholinesterase inhibition. Cholinergic symptoms may include salivation, miosis, incoordination, muscle fasciculation and/or weakness, vomiting and diarrhea. Atropine is antidotal. 2-PAM may be effective as an adjunct to atropine. Call (The Hartz Mountain Corporation at) 1-800-275-1414 or your local Poison Control Center for further information.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

REMOVE COLLAR FROM PACKAGE, UNROLL AND STRETCH TO ACTIVATE INSECTICIDE GENERATOR. As the collar begins to work, a fine white powder will appear on the surface.

Do not use on (puppies under 6 weeks old) (kittens under 12 weeks old). Do not unroll collar until ready to use. Place the (Hartz® Rabon® Collar with Methoprene) (alternate brand name) (collar) around the (dog's)(puppy's)(dog's or puppy's) (cat's)(kitten's)(cat's or kitten's) neck, adjust for proper fit, and buckle in place. The collar must be worn loosely to allow for growth of the cat (dog) (animal) and to permit the collar to move around (about) the neck. (Generally,) a properly fitted collar is one that, when fastened, will snugly slide over the pet's head. Leave 2 or 3 inches on the collar for extra adjustment and cut off and dispose of the extra length.

7/13

Consult a veterinarian before using this product on debilitated, aged, or medicated animals. If used on pregnant or nursing (dogs)(cats), do not replace collar until the (puppies are at least 6 weeks old)(kittens are at least 12 weeks old).

Sensitivity may occur after using ANY pesticide product for pets. Some animals may become irritated by any collar if it is applied too tightly. If this occurs, loosen the collar. If irritation continues, remove the collar from the animal. If signs of sensitivity occur, (remove the collar and) bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Do not use this product on animals simultaneously or within 30 days before or after treatment with or exposure to cholinesterase inhibiting drugs, pesticides, or (similar) chemicals. However, flea and tick collars may be immediately replaced (with new collars).

This collar is intended for use only as an insecticide/IGR generator. The collar will begin to kill fleas, ticks and flea eggs and larvae immediately. Its full protection against harder to kill ticks will be built up within a few days after being placed on the pet. For continuous (flea and tick) protection under normal conditions replace the collar every seven months. Under conditions where pets are exposed to severe flea and tick infestations, it may be necessary to replace the collar more frequently.

Wetting will not impair the collar's effectiveness or the pet's protection. If the pet goes swimming or is out in the rain it is not necessary to remove the collar. The (Hartz® Rabon® Collar with Methoprene) (alternate brand name) may be worn with a regular collar.

STORAGE AND DISPOSAL

Storage: Store at room temperature.

Disposal: Do not (re)use empty pouch. Place in trash or offer for recycling if available.

For more information (about flea and tick problems) (and how to solve them) (or help at any step), (or in case of emergency) (or for help during any step) call our flea and tick experts at 1-800-275-1414 weekdays, 9am-5pm (Eastern Standard Time)(E.S.T).

Contains PRECOR insect growth regulator

With vIGRen

Plus IGR

Prevents flea eggs from hatching (for 7 months)

Kills (flea) eggs before they hatch

Kills flea eggs (and larvae)

Kills hatching eggs

Kills all stages of the flea life cycle

Stops the flea and tick life cycle

Kills the Deer tick, which may carry Lyme disease

Kills the Rocky Mountain wood tick, which may carry Rocky Mountain Spotted fever

The Hartz® Rabon® Collar with Methoprene) (alternate brand name) contains(both) (an insecticide to kill adult fleas and ticks and an insect growth regulator [vIGRen] to kill flea eggs before they hatch) (a powerful, effective insecticide which kills adult fleas and ticks, and a long-lasting insect growth regulator which prevents flea eggs and larvae from maturing into adults).

Adult fleas spend virtually all of their time on your pet and develop in the environment.

Once fleas are apparent on your pet, there is already an infestation of their pre-adult stages in your home.

Normal insecticides will not kill (the) flea eggs.

(But) the Hartz® Rabon® Collar with Methoprene) (alternate brand name) is designed to kill both the adult flea and its eggs and larvae, thereby breaking the flea life cycle.

The collar will (also) break the tick life cycle by killing adult ticks, including the Deer tick, which may carry Lyme disease, and the Rocky Mountain wood tick, which may carry Rocky Mountain Spotted Fever.

To activate collar, hold at each end...STRETCH...it's ready to work

Step B Protect Your Pet

Important Information: The A B C's of Flea and Tick Control (Management)

Control Pet Care System® (alternate brand) products are designed to work together in a complete insecticidal system. For control of fleas and ticks, it is necessary to treat not only the pet but also its surrounding environment. Use Control Pet Care System® (alternate brand) and follow these simple ABC's to get rid of fleas and ticks on your pet and around your home

(Step A) Treat Your Pet (with one of the Control Pet Care System® (alternate brand) on-animal products such as Conditioning Shampoo, Dip or Spray) to kill fleas and ticks living on your pet. (Use a Control Pet Care System® (alternate brand) product containing vIGRen, an insect growth regulator (IGR) to also stop hatching flea eggs from developing into biting adults.)

(Step B) Protect Your Pet with a Control Pet Care System® (alternate brand) Repellent or flea

OPTIONAL/ALTERNATE LABEL TEXT (con't)

and tick collar to keep fleas and ticks from re-infesting your pet (and prevent flea eggs from hatching). (The Hartz Rabon Collar with Methoprene (alternate brand) will also prevent flea eggs from hatching).

(Step C) Treat Your Home (both indoors and outdoors) with Control Pet Care System® (alternate brand) Home Spray killer or Fogger with vIGRen (alternate brands) and Control Pet Care System® (alternate brand) Yard and Kennel Spray (alternate brand) to protect your entire home and guard against re-infestation.

Be sure to read full directions and precautions on the label of each product you use. For more information or help at any step, call our flea and tick experts at (phone number) (time)

Important Information About Flea Control

To minimize flea infestation, it is necessary to treat not only your pets, but also their surrounding environment. Zodiac products containing PRECOR Insect Growth Regulator and an adulticide have been formulated to work together. For best results, simply follow these four easy steps:

Step 1 Shampoo, mousse or dip your pet

- A shampoo, mousse or dip will kill biting adult fleas on your pet
- Zodiac Fleatrol products in Step 1 kill fleas and flea eggs with a combination of PRECOR insect Growth Regulator and an adulticide

Step 2 Place a collar on your pet

- A Zodiac collar will provide long-lasting protection
- This collar kills flea eggs and biting adult fleas

Step 3 Treat the areas your pet frequents

- Use a Zodiac aerosol, fogger or spray to kill adult fleas and flea larvae in your home. Zodiac Fleatrol products in Step 3 kill adult fleas and flea eggs with a combination of PRECOR insect Growth regulator and an adulticide. The Zodiac Fleatrol Yard Spray Concentrate kills flea larvae in your yard
- Follow individual product directions to kill additional fleas which later emerge from protected cocoons.

Step 4 Maintain your flea-free pet

- Use Zodiac on-animal spray to kill fleas your pet picks up on outings
- Zodiac Fleatrol products in Step 4 kill adult fleas and flea eggs using a combination of PRECOR Insect Growth Regulator and an adulticide

For Best Results—Follow these steps in order

Be sure to read full directions and precautions on the label of each product that you use.
