FRONT PANEL

HARTZ RABON SPRAY WITH METHOPRENE PUMP FORMULATION

Alternate Name: Hartz® HealthCare™ 3 in 1 Dog Spray

ACTIVE INGREDIENTS:	BY WEIGHT [NORM.]
Tetrachlorvinphos (CAS # 22248-79-9).....	1.08%
[S]-Methoprene: (CAS# 65733-16-6).....	0.07%
INERT INGREDIENTS.....	9.8.85%

KEEP OUT OF REACH OF CHILDREN

CAUTION

See back panel for additional precautionary statements.

Net Wt. [Ranges from 6 oz. to 64 oz.]

CAUTION: Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling.

FIRST AID

IF SWALLOWED: Contains an organophosphate that inhibits cholinesterase. **IF SWALLOWED:** Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or Doctor. Do not give anything by mouth to an unconscious person. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice. **If In Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

Have the product container or label with you when calling a Poison Control Center of doctor, or going for treatment.

NOTE TO PHYSICIANS AND VETERINARIANS:

This product contains an organophosphate and may cause cholinesterase inhibition. Cholinergic symptoms may include salivation, miosis, incoordination, muscle fasciculation and /or weakness, vomiting, and diarrhea. Atropine is antidotal. 2-

NOTIFICATION

JUL 26 2003

PAM may be effective as an adjunct to atropine. Call a Poison Control Center for further information.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS – CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. Do not use on puppies or kittens under 12 weeks. Do not spray in eyes

To prevent harm to you or your pet, read entire label before use.

HAZARDS TO ANIMALS – Consult veterinarian before using this product on debilitated, aged or medicated animals. Sensitivity may occur after using ANY pesticide product for pets. If signs of sensitivity occur bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

PHYSICAL OR CHEMICAL HAZARDS – Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 103°F may cause bursting.

ENVIRONMENTAL HAZARDS– This product is toxic to aquatic invertebrates. Using it in a manner other than that described by this label could result in harm to aquatic invertebrates.

BACK PANEL

HARTZ RABON SPRAY WITH METHOPRENE PUMP FORMULATION
[Hartz Rabon Spray With Methoprene contains both an insecticide to kill and repel adult fleas and ticks and an insect growth regulator (IGR), to kill flea eggs before they hatch, an effective insecticide which kills and repels adult fleas and ticks, and a long lasting insect growth regulatory which prevents flea eggs from hatching and larvae from maturing into adults.] Adult fleas spend virtually all of their time on your pet, but they product vast numbers of eggs, which drop off the pet and develop in the environment. [Hartz Rabon Spray with Methoprene kills flea eggs and larvae before they drop off your pet.] Once fleas are apparent on your pet, there is already an infestation of their pre-adult stages in your home. Normal insecticides will not kill the flea eggs. But Hartz Rabon Spray With Methoprene is designed to kill both the adult flea and its eggs and larvae, thereby breaking the flea life cycle. The spray will also break the tick life cycle by killing adult ticks, including the Deer Tick, which may carry Lyme Disease, and the Rocky Mountain Tick, which may carry Rocky Mountain Spotted Fever.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL BEFORE EACH USE

USE ONLY ON DOGS

USE ONLY ON CATS

SHAKE WELL BEFORE USE: To kill and repel fleas, ticks and lice for 7 days for 1 week, thereby reducing incidence of itching and scratching and to kill flea eggs and prevent their hatching for over 1 month [28 days] [4 weeks], hold container upright 6-10 inches from the animal and spray lightly over the entire body, pressing the dispenser with quick short strokes. Move spray to get even coverage of coat until tips of hair are moist. Do not spray in eyes. Apply lightly and rub into coat. Ruffle hair for spray to reach skin. Once sprayed, fleas will be killed within 5 to 10 minutes. Ticks are tough – spray directly. In addition to controlling fleas and ticks, this product leaves your pet's coat soft, glossy and manageable.

Under normal circumstances, to kill adult fleas and ticks, repeat spray once every few days until infestation is brought under control. For more prolonged flea and tick control, the animal's bedding, quarters and surrounding area should also be sprayed lightly until damp to help prevent reinfestation.

STORAGE AND DISPOSAL:

Storage: Store at room temperature.

Disposal: Do not reuse this container. Place in trash or offer for recycling if available.

If partly filled: Call your solid waste agency or (1-800-CLEANUP) for disposal instructions. Never place unused product down any indoor or outdoor drain.

Unconditional Money-Back Guarantee. For more information about flea and tick problems and how to solve them, call 1-800-275-1414, weekdays, 9 am to 5 PM Eastern time.

IMPORTANT INFORMATION:

The ABC's of Flea & Tick Management

A – Treat Your Pet

Control Pet Care System products are designed to work together in a complete insecticidal system. For elimination of fleas and ticks, it is necessary to treat not only the pet but also its surrounding environment. Use Control Pet Care System products and follow these simple ABC's to get rid of fleas and ticks on your pet and around your home.

STEP A – TREAT YOUR PET with one of the Control on-animal products such as Conditioning Shampoo, Dip, Powder or Spray. Use a Control product containing vIGRen®, an Insect Growth Regulatory [IGR] to also stop hatching flea eggs from developing into biting adults.

STEP B – PROTECT YOUR PET with a Control repellent or flea and tick collar to keep fleas and ticks from reinfesting your pet. The Control Pet Care System Ultimate Flea Collar™ will also prevent flea eggs from hatching.

STEP C – TREAT YOUR HOME both indoors and outdoors, with Control Pet Care System Home Flea & Tick Killer or Fogger with vIGRen® and Control Pet Care System Yard and Kennel Spray to protect your entire home and guard against reinfestation. The Control Pet Care System Flea Trap will also serve to help break the flea life cycle by killing fleas in hard-to-reach areas in your home.

Be sure to read full directions and precautions the label of each product you use.

OPTIONAL COPY #2

Subject: Notification of Use of Common Names for Active Ingredients on Pesticide
Labeling as per 97-05.
EPA Registration Numbers 2596-78, 2596-125, 2596-126 and 2596-140

Dear Mr. LaRocca:

Due to the space constraints on our containers, The Hartz Mountain Corporation wishes to use the common name 'Tetrachlorvinphos' (CAS # 22248-79-9) for (Z)-2-chloro-1-(2,4, 5-trichlorophenyl) vinyl dimethyl phosphate (the IUPAC name) in the previously mentioned registrations.

In accordance with PR Notice, we are enclosing the completed EPA form 8570-1 Application for Registration for each registration and a copy of each label with the common names highlighted.

If you have any questions concerning this notification please do not hesitate to call me at (201) 271-4800.

Sincerely,

Carol A. Oddi
Regulatory Specialist
