**EPA Reg. No. 2596-146**  
Addition of alternate brand names per PR Notice 98-10

Dear Mr. Gebken:

The Hartz Mountain Corporation, 400 Plaza Drive, Secaucus, NJ 07094-3688 is filing this notification to add new alternate brand names for the product.

The Hartz Mountain Corporation is submitting the following information:

- A completed application (EPA Form 8570-1)and;
- Three copies of the proposed notification label.

"This notice is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR §152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA."

If you have any questions or need additional information, please feel free to contact me at (201) 271-4800, ext. 7202 or <mailto:rosenwasser@hartz.com>.

Sincerely,

Robert Rosenwasser  
Director, Regulatory Affairs

---

**STORAGE AND DISPOSAL:** Do not contaminate water, food or feed by storage and disposal. Store in a cool, dry place. Do not re-use empty tube. Wrap and discard in trash.

**PRECAUTIONARY STATEMENTS- HAZARDS TO HUMANS**

Caution: Causes eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling.

**HAZARDS TO DOMESTIC ANIMALS: CAUTION: DO NOT USE ON CATS.**

Cats which come in close physical contact with recently treated dogs may be at risk of an adverse reaction. To minimize the chance of an adverse reaction, cats should be separated from the recently treated dog for a minimum of 6 hours. Do not use on puppies less than six months old. Consult a veterinarian before using this product on debilitated, aged, medicated, pregnant or nursing animals. Sensitivity, such as slight transient irritation or hair loss at the site of application, may occur after using ANY pesticide product for pets. If signs of sensitivity occur bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish.

**FIRST AID:** If in eyes: Flush eyes with plenty of water. Call a physician if irritation persists.

(Precor®) (and) (vIGRen™) (is a) (are) registered trademark(s) of Wellmark Intl.

Hartz Control Pet Care System products are designed to complement each other in an integrated program for flea & tick management. To assure proper treatment, we recommend use of only Hartz Control Pet Care system products.

This product contains three monthly dosages, each (3 cc) (2 cc) (1 cc) (0.65 cc)

[(As with all flea and tick product, they are) (Hartz Ref. 101 is) most effective when used as part of a total program aimed at reducing fleas and ticks (and mosquito) in the dog's environment.] Be sure to treat the animal's bedding and surroundings with products registered for these uses, such as the Hartz Control Pet Care System line.

[the Hartz Ref. 101 contains both (an insecticide to kill adult fleas and ticks (and mosquitoes) and an insect growth regulator (IGR) to kill flea (and mosquito) eggs before they hatch.) (a powerful, effective insecticide which kills adult fleas and ticks (and mosquitoes), and a long lasting insect growth regulator which prevents flea (and mosquito) eggs and larvae from maturing into adults.))] (Adult fleas spend virtually all of their time on hour pet, but they product vast numbers of eggs which drop pff the pet and develop in the environment.) ( Once fleas are apparent on your pet, there is already an infestation of their pre-adult stages in your home.) (Normal insecticides will not kill the flea eggs. Bu the Hartz Reg. 101 is designed to kill both the adult flea (and mosquito) eggs and larvae, there by breaking the flea (and mosquito) life cycle.) (the repellent will also break the tick life cycle by killing adult ticks, including the Feet Tick, which may carry Lyme disease, and the Rocky Mountain Wood Tick, which may carry Rocky Mountain Spotted Fever.)

(One Spot™ provides relief from flea infestations for one month by controlling and preventing fleas on your dog and puppy. Adult fleas can live on your pet while also producing vast numbers of eggs which drop off your pet and develop in the surrounding environment. One Spot™ kills the adult flea, its eggs and larvae, thereby breaking the flea life cycle. One Spot breaks the tick life cycle by killing ticks, including the Rocky Mountain Wood Tick and the Deer Tick (the major carrier of human and canine Lyme Disease). One Spot™ also kills and repels mosquitoes, a major carrier of canine heartworms.)

After application, through its natural movement, your pet's skin and hair oils carry One Spot™ over the pet's body for protection against fleas, ticks (mosquitoes), flea eggs and larvae. Initially, to kill existing adult flea populations, you may need to treat the home, pet's bed and yard with traditional flea products such as home sprays, foggers and/or yard

11/12

& kennel spray. One Spot™ can be used in conjunction with the entire Control Pet Care System® product line.

To help remind you when you last applied treatment, simply write in the date when each dose is applied.
