Subject: Non-PRIA (Pesticide Registration Improvement Act) Labeling Amendment – Adding
Spot on Mitigation Language
Product Name: Hartz Ref. 114
EPA Registration Number: 2596-147
Application Date: February 10, 2015
OPP Decision Number: 500209

Dear Mr. Hemsarth:

The amended labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable.

This approval does not affect any terms or conditions that were previously imposed on this registration. You continue to be subject to existing terms or conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one (1) copy of the final printed labeling before you release this product for shipment with the new labeling. In accordance with 40 CFR § 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. “To distribute or sell” is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR § 152.3.

Should you wish to add/retain a reference to your company’s website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the U.S. Environmental Protection Agency (EPA). If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains false

Page 2 of 2
EPA Reg. No. 2596-147
OPP Decision No. 500209

or misleading statements or claims substantially differing from the EPA-approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

Your release for shipment of this product constitutes acceptance of these terms. If these terms are not complied with, this registration will be subject to cancellation in accordance with FIFRA section 6.

If you have any questions, please contact Menyon Adams of my team by phone at (703) 347-8496 or via email at adams.menyon@epa.gov.

Sincerely,

A handwritten signature in blue ink that reads "Andrew C. Bryceland". The signature is fluid and cursive, with the first name "Andrew" and last name "Bryceland" clearly legible.

[*Note: Multiple packages containing from 1 tube to 150 tubes – each tube contains 0.03 fl. oz. (1 ml)*]

BACK PANEL

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS

CAUTION: Causes eye irritation. Avoid contact with eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco products.

HAZARDS TO DOMESTIC ANIMALS

Do not use on kittens less than **12** weeks old. Consult a veterinarian before using this product on debilitated, aged, medicated, pregnant or nursing animals. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

ENVIRONMENTAL HAZARDS

This product is toxic to fish.

FIRST AID

Have label with you when obtaining treatment advice.

If in eyes:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a Poison Control Center or doctor, or call Hartz emergency line at 1-800-275-1414 for treatment advice.

READ ENTIRE LABEL BEFORE EACH USE

USE ONLY ON (CATS) (OR) (KITTENS) OVER 12 WEEKS OF AGE.

RESTRICTIONS

USE ONLY ON CATS OR KITTENS 12 WEEKS AND OLDER

DO NOT USE ON OTHER ANIMALS

DO NOT EXCEED LABELED DOSAGE AMOUNT FOR CATS

DO NOT APPLY MORE THAN ONE (1) TUBE PER TREATMENT ON ANY CAT

DO NOT HAVE CONTACT OR ALLOW CHILDREN TO HAVE CONTACT WITH TREATED AREA UNTIL COMPLETELY DRY.

BACK PANEL (CONT'D)

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product contains three monthly treatments, each 0.03 fl. oz., (1 ml)

To control fleas on cats:

1. Use **ONLY** on cats or kittens over 12 weeks of age. **DO NOT USE ON OTHER ANIMALS.**
2. Remove one applicator tube from package and hold in an upright position pointed away from your face.
3. Pull off cap. Turn the cap around and place on top.
4. Simply press cap down to break the seal of the tube. Remove cap carefully.
5. Position the tip of the tube on the cat's back between the shoulder blades and squeeze out the entire contents of the tube.
6. Repeat every month.

SIDE EFFECTS

Side Effects – Monitor your cat after application. Side effects may include signs of skin irritation such as redness, scratching, or other signs of discomfort. Gastrointestinal signs such as vomiting or diarrhea have also been reported. If these or other side effects occur, consult your veterinarian or call 1-800-275-1414.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

Pesticide Storage: Store this product in a cool, dry place that is inaccessible to children.

Pesticide Disposal: If empty: Nonrefillable container. Do not refill or reuse this container. Offer for recycling, if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

BATCH CODE: _____

OPTIONAL/ALTERNATE LABEL TEXT

Controls (and) (&) (prevents) flea eggs (and) (&) flea (larvae) for (30 days) (one month) (4 weeks)

Controls (and) (&) (prevents) flea eggs (and) (&) flea (larvae) (through contact) for (30 days) (one month) (4 weeks)

Controls hatching eggs

Flea egg (and) (&) (flea) larvae treatment

Controls and prevents flea eggs and (and)(&) (flea) larvae

(Advanced) flea egg (and)(&) (flea) larvae topical treatment that's easy and convenient to use

Advanced flea (egg and larvae) treatment

Prevents flea eggs (from hatching) (for 30 days) (1 month) (4 weeks)

Controls flea eggs before they hatch

Controls flea eggs (and)(&) (flea) larvae for 30 days

Prevents (flea) re-infestation for (1 month) (30 days) (4 weeks)

Contains an insect growth regulator

Breaks the flea life cycle

(This product) (alternate brand name) (with insect growth regulator)(IGR) is a monthly

treatment that effectively controls fleas.

Hartz® UltraGuard^(TM) (alternate brand name) products are designed to complement each other in an integrated program for flea management.

(alternate brand name) controls flea eggs (and) (&) (flea larvae)

One tube gives (30 days) (4 weeks) (1 month) control

Apply to one spot for (total body) flea control

Flea control for cats with Insect Growth Regulator (IGR)

A single female can lay (and average of) 25 eggs per day (on average)

As with all flea and tick products, (alternate brand name) is most effective when used as part of a total program aimed at reducing fleas

Controls flea (population growth) (infestation)

(alternate brand name) provides relief from flea populations on cats and kittens by controlling flea eggs (and)(&) flea larvae.

(alternate brand name) contains [an insect growth regulator (IGR) to kill flea eggs before they hatch.] [a long lasting insect growth regulator which prevents flea eggs and larvae from maturing into adults.]

Adult fleas spend virtually all of their time on your pet, but they produce eggs which drop off the pet and develop in the environment.

Once fleas are apparent (visible) on your pet, there is already an infestation of their pre-adult stages in your home.

(alternate brand name) is designed to control flea eggs (and) (&)(flea) larvae, thereby breaking the flea life cycle.

As with all flea products, (alternate brand name) is most effective when used as part of a total program aimed at reducing fleas in the cat's environment.

Be sure to treat the animal's bedding and surroundings with products registered for these uses.

(alternate name) provides relief from flea infestations for one month by controlling and preventing flea eggs and larvae on your cat (or kitten).

After application, through its natural movement, your cat's skin and hair oils carry (alternate brand name) over the pet's body for control against flea eggs and larvae.

To control existing flea eggs and (flea) larvae (and control) (adult flea populations), you may need to treat the (your) (pet), home, pet's bed and yard with traditional flea products approved for use on pets, around the home, or in your yard (such as home sprays, foggers and/or yard and kennel spray).

(alternate name) can be used in conjunction with the entire (alternate name) product line.

NON-PESTICIDE RELATED CLAIMS AND OTHER OPTIONAL TEXT

X Month(s) Control

(Provides) X Months Control

X(s) Month supply

(Triple) (Four)(3) (4) pack

This product contains (X) monthly treatments, each 0.03 fl. oz. (1 cc).

To help remind you when you last applied treatment, simply write in the date when each treatment was applied:

First Treatment_____

Second Treatment_____

Third Treatment_____

Xth Treatment_____

Convenient, easy to use applicator

Easy (simple) to use (handle) (apply)

For (indoor) cats (and kittens)

Indoor cats (and kittens) can (easily) be exposed to fleas [through contact with (other pets) (and) (&) (people)]

(For best results) wait 48 hours after applying before bathing your cat.

(For best results) do not bathe your cat for 48 hours after application.

Water Resistant

After application, the treated area may appear wet or oily for up to 24 hours.

May stain leather and suede fabrics for (24) (24-48) hours after application.
