OFFICE OF  
PREVENTION, PESTICIDES AND  
TOXIC SUBSTANCES

Robert Rosenwasser  
The Hartz Mountain Corporation  
400 Plaza Drive  
Secaucus, NJ 07094

Dear Mr. Rosenwasser:

Subject: Hartz Ref 118  
EPA Reg. No. 2596-150  
Submission dated 4/16/07

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. One copy of the finished labeling must be submitted prior to releasing the product for shipment.

The net contents are required to be presented in US customary units of measure, (fluid ounces). The label may also present optional metric equivalent. The label in some places refers to cubic centimeters, and elsewhere to milliliters. To avoid confusion, use one or the other.

Confirm the fluid ounce net contents for dogs over 60 lbs. and correct if necessary.

The net contents on the individual tubes must be the net contents for each weight class. A range is not acceptable.

On the individual tube label, revise the reference to the complete label to read:  
Read accompanying label before use.

All references to "larvae" must read "flea larvae".

Delete the following claims, which are not supported by the data submitted:  
Starts working on contact.  
Dual action for immediate and long lasting effects.

Delete the following comparative claims:

Powerful results when you need it.  
...improved application.

Delete the following claims, which are false and misleading:

When your dog has fleas and ticks, your family and pet may be exposed to: fleas that may cause) flea allergy dermatitis, flea bite anemia, tapeworm infestation, deer ticks which may carry lyme disease, lyme disease, mosquitoes that may carry west nile virus, west nile virus.

Delete references to a website, as this reference makes the website collateral labeling, and the collateral labeling has not been reviewed.

Delete the following claims which imply 100% efficacy:

Claims using the terms "protect" and "protection".

Claims using the term "eliminates."

Claims to "provides relief from flea infestations" and "provides relief from flea and tick infestations (from flea and tick populations)."

Claims about "making your pet flea-free".

Revise the claim "For dogs and puppies four pounds or more" to read "For dogs and puppies over four pounds."

Delete the following safety claim:

"Clean..."

To avoid misuse, all product names, including both the outer package as well as the individual tubes, must include the size dog/puppy for which the product is intended.

Acceptance of this label does not constitute approval of claims appearing on this label that are made for other Hartz products. Label claims for other Hartz products must be qualified by a statement referring the user to the labels for those products.

As noted in the Agency's letter of Dec. 14, 2006, the due data for data supporting mosquito claims is due Dec. 14, 2007. Copies of the efficacy and companion animal safety reviews are enclosed.

Changes in package size must be submitted as an amendment and not as a notification as they may affect both efficacy and margins of exposure for the treated dog.

3/17

If you have questions, please call Ann Sibold at 703 305-6502.

Sincerely,

*for Ann Sibold*  
Richard Gebken

**READ ENTIRE LABEL BEFORE EACH USE**  
**USE ONLY ON DOGS OR ON PUPPIES 12 WEEKS OF AGE OR OLDER**  
**DO NOT USE ON DOGS OR PUPPIES WEIGHING 4 LBS. OR LESS.**

**PRECAUTIONARY STATEMENTS**  
**HAZARDS TO HUMANS**

**CAUTION:** Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco.

**HAZARDS TO DOMESTIC ANIMALS**

**DO NOT USE ON CATS OR KITTENS.** Do not use on puppies less than 12 weeks old. Do not use this product on debilitated, aged, medicated, pregnant or nursing animals or on animals known to be sensitive to pesticide products without first consulting a veterinarian. Sensitivity, such as slight transitory redness of the skin at the site of application, may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap, rinse with large amounts of water, and consult a veterinarian immediately.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish.

**FIRST AID**

**If in eyes:** • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice. • You may also contact 1-800-275-1414 for emergency medical treatment information. • Have the product container or label with you when

calling for advice or going for treatment.

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

(The application steps below may optionally be numbered or bulleted to clarify the order, depending on the final physical layout of the label)

[There are 4 closure options for the tube. The first represents the currently used cap. The following 3 closure options are proposed for use with this product.]

[Note: New text for opening new closures (option #1, #2 and #3) is highlighted.]

#### [Current cap]

Remove one applicator tube from the package and hold in an upright position (pointed away from your face). (Pull off cap. Turn the cap around and place on top of tube. Simply press cap down to break the seal of the tube. Remove cap carefully.) (Hold bottom of tube with one hand. With the other hand, snap cap off.)

Position the tip of the tube on the dog's back between the shoulder blades. Use the tip of the tube to part the dog's hair so that the product will be applied at skin level. Begin squeezing out the contents of the tube to form a stripe as you move from the shoulder blades along the dog's back to the base of the tail. Repeat every month.

#### [New optional cap #1]

Remove one applicator tube from the package and hold in an upright position pointed away from your face. Twist dispensing tip clockwise about 1/2 turn while pushing down to break the tube's seal. Do not remove the dispensing tip.

Position the dispensing tip on the dog's back between the shoulder blades. Use the dispensing tip of the tube to part the dog's hair so that the product will be applied at skin level. Begin squeezing out the contents of the tube to form a stripe as you move from the shoulder blades along the dog's back to the base of the tail. Repeat every month.

#### [New optional cap #2]

Remove one applicator tube from the package and hold in an upright position pointed away from your face. Squeeze the middle of the dispensing tip at the grooved pad to break the inner seal. Position the dispensing tip of the tube on the dog's back between the shoulder blades. Use the tip of the tube to part the dog's hair so that the product will be applied at skin level. Begin squeezing out the contents of the tube to form a stripe as you move from the shoulder blades along the dog's back to the base of the tail. Repeat every month.

#### [New optional cap #3]

Remove one applicator tube from the package and hold in an upright position pointed away from your face. Twist dispensing tip clockwise about 1/2 turn until you feel it click into place. Push down to break the tube's seal. Do not remove the dispensing tip.

Position the dispensing tip of the tube on the dog's back between the shoulder blades. Use the tip of the tube to part the dog's hair so that the product will be applied at skin level. Begin squeezing out the contents of the tube to form a stripe as you move from the shoulder blades along the dog's back to the base of the tail. Repeat every month

**STORAGE AND DISPOSAL:**

Do not contaminate water, food, or feed by storage and disposal. Store in a cool, dry place. **If empty:** Do not reuse the container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

For more information call our flea and tick experts at 1-800-275-1414 (weekdays, 9 am – 5 pm E.S.T.)

Hartz Ref. 118 (alternate brand name) provides relief from flea infestations for one month by controlling and preventing fleas on your dog and puppy

**OPTIONAL/ALTERNATE LABEL TEXT, continued**

Hartz Ref. 118 (alternate brand name) contains an effective insecticide which kills adult fleas, ticks and mosquitoes and a long lasting insect growth regulator which prevents flea eggs and larvae from maturing into adults.

After application, through its natural movement, you pet's skin and hair oils carry Hartz Ref. 118 (alternate brand name) over the pet's body for protection against fleas, ticks, mosquitoes, flea eggs, and larvae.

Special formula for dogs

Specially formulated for dogs

For use on dogs and puppies 12 weeks of age or older only

For dogs and puppies 12 weeks of age or older

For dogs and puppies weighing 4 lbs. or more

Hartz Ref. 118 (this product)(alternate brand name) provides relief from flea and tick infestation (from flea and tick populations) on dogs and puppies by controlling and preventing (adult fleas) (ticks) (flea eggs) and (larvae)

Apply as a stripe for head to tail (total body) flea and tick (and mosquito) protection (control)

(Why use Hartz® Ref. 118 (this product)(alternate name brand)?) Hartz® Ref. 118 (this product)(alternate name brand) contains two (2) special (active) ingredients. The first (active) ingredient, phenothrin, is specifically designed to kill adult fleas, ticks, and mosquitoes. The second (active) ingredient, (S)-methoprene, is designed to kill flea eggs and larvae. This combination provides your pet with complete protection. Why is it important to kill flea eggs and larvae? Fleas spend virtually all their life on your pet and they produce a vast number of eggs, which drop off the pet and develop in the environment. Once you see fleas on your pet, there is already an infestation of pre-adult flea stages in your home. Hartz® Ref. 118 (this product)(alternate name brand) is specifically designed to kill adult fleas, flea eggs, and larvae, thereby breaking the flea life cycle and making your pet flea-free.

Hartz® (Control Pet Care System) products are designed to complement each other in an integrated program for flea and tick management. To assure proper treatment, we recommend use of only Hartz® (Control Pet Care System) products.

Hartz® Ref. 118 (this product) (alternate brand name) with (PRECOR®) (vIGRen®) - Insect Growth Regulator is the monthly treatment that effectively controls flea and tick infestations. Hartz Ref. 118 (this product) (alternate brand name) kills and prevents adult fleas and ticks (adult mosquitoes) plus flea eggs and larvae. It also repels and kills mosquitoes.

As with all flea and tick products, they are (Hartz Ref. 118 (this product) (alternate brand name) is) most effective when used as part of a total program aimed at reducing fleas and ticks in the dog's environment.

Be sure to treat the animal's bedding and surroundings with product registered for these uses, such as the Hartz® (Control Pet Care System) line.

**OPTIONAL/ALTERNATE LABEL TEXT, continued**

Hartz® Ref. 118 (this product) (alternate brand name) contains [(both) (an insecticide to kill adult fleas and ticks) (and mosquitoes) and an insect growth regulator (IGR) to kill flea eggs before they hatch] [a powerful effective insecticide which kills adult fleas and ticks (and mosquitoes) and a long-lasting insect growth regulator which prevents flea eggs and larvae from maturing into adults] (Adult fleas spend virtually all of their time on your pet, but they produce vast numbers of eggs which drop off the pet and develop in the environment.) [Once fleas are apparent on your pet, there is already an infestation of their pre-adult stages in your home. Hartz® Ref. 118 (this product) (alternate brand name) is designed to kill both the adult flea (and adult mosquito) and flea eggs and larvae, thereby breaking the flea (and adult mosquito) life cycle.] [Hartz® Ref. 118 (this product) (alternate brand name) will also break the tick life cycle by killing adult ticks, including the Deer Tick, which may carry Lyme disease. ~~and the Rocky Mountain Wood Tick, which may carry Rocky Mountain spotted fever.~~]

Hartz® Ref. 118 (this product) (alternate brand name) provides relief from flea infestations for one month (30 days) (4 weeks) by controlling and preventing fleas on your dog or puppy. Adult fleas can live on your pet while also producing vast numbers of eggs, which drop off your pet and develop in the surrounding environment. Hartz® Ref. 118 (this product) (alternate brand name) kills the adult flea, (and) its eggs and larvae, thereby breaking the flea life cycle. Hartz® Ref. 118 (this product) (alternate brand name) breaks the tick life cycle by killing the adult ticks. ~~including the Rocky Mountain Wood Tick and the Deer Tick (which may carry Lyme disease).~~ Hartz® Ref. 118 (this product) (alternate brand name) also kills and repels mosquitoes, (which may carry canine heartworms.)

**Important Information:**

**The ABC's of Flea and Tick Management**

A—Treat Your Pet to kill fleas and ticks living on your pet

B—Protect Your Pet to keep fleas and ticks from re-infesting your pet

C—Treat Your Home both indoors and outdoors, to protect your entire home and guard against re-infestation.

Be sure to read the full directions and precautions on the label of each product you use.

**Step A—Treat Your Pet** with one of the Hartz® (Control Pet Care System) on-animal products, such as conditioning shampoo, dip, powder or spray, to kill fleas and ticks living on your pet. Use a Hartz® (Control Pet Care System) product containing (PRECOR®) (vIGRen®), an insect growth regulator (IGR) to also stop hatching flea eggs from developing into biting adults.

**Step B—Protect Your Pet** with a Hartz® (Control Pet Care System) repellent or flea and tick collar to keep fleas and ticks from re-infesting your pet. The (Hartz® Control Pet Care System Ultimate Flea Collar with vIGRen® and Rabon®) (alternate brand name) will also prevent flea eggs from hatching.

**Step C—Treat Your Home** both indoors and outdoors, with (Control Pet Care System Home Flea and Tick Killer or Fogger with vIGRen®) (alternate brand names) and (Control Pet Care System Yard and Kennel Spray) (alternate brand name) to protect your entire home and guard against re-infestation. [The (Control Pet Care System) (alternate brand name) Flea Trap will also serve to help break the flea life cycle (by killing fleas) in hard to reach areas of your home.]

Rabon® is a registered trademark for tetrachlorvinphos

vIGRen® is a registered trademark of Wellmark International
