### Directions

Scatter DUROX under the casket lining around the body. Use one can in SEALED caskets and at least TWO cans if NOT sealed.

### VAULT CASES

Durox is indispensable in vault cases or when casket is to remain closed for a long period or a journey by land or sea. The gas or vapor which emanates from this powder will act as a germicide, and prevent the growth of mold and mildew in sealed vaults. In unsealed vaults, it will inhibit the growth of these forms of vegetable and animal life for a prolonged period of time.

### ADDITIONAL USES

For deodorizing and cauterizing bed sores, gangrene, cancer and accident cases. The parts to be treated should be sprinkled with a layer of DUROX and covered or wrapped with rubber sheeting. Seal all openings with adhesive tape.
