USE DIRECTIONS

Use at 2 ounces per gallon. This product will provide 500 ppm quaternary to the use solution. This is enough for general disinfection, fungicidal activity against pathogenic fungi and deodorizing.

For best results, use SANI KLEEN with a cloth or mop and apply to walls, floors, table tops, counters and garbage cans.

For use in hospitals, 3 ounces per gallon will be required for disinfection against *Pseudomonas aeruginosa*.

For heavy soil, a pre cleaning step is recommended before using SANI KLEEN.

SANITIZATION

When used for sanitization of previously cleaned food processing or food contact items, limit the level of active quaternaries to 200 ppm (4 ounces per 5 gallons of water) and submerge article in sanitizing solution or apply sanitizing solution with cloth or sponge. Treated food contact surfaces must be pre-rinsed with potable water prior to reuse.

DISPOSAL

Rinse empty container thoroughly with water and discard. Do not reuse container. Keep out of reach of children.

WARRANTY

Our recommendations for use of this product are based upon tests believed to be reliable. The use of this product being beyond the control of the manufacturer, no guarantee, expressed or implied, is made as to the effects of such or the results to be obtained if not used in accordance with directions or established safe practice. The buyer must assume all responsibility, including injury or damage, resulting from its mis-use as such, or in combination with other materials. Statements concerning the use of these products are not to be construed as recommending the infringement of any patent, and no liability for infringement arising out of any such use assumed.

SANI-KLEEN is a cleaner, disinfectant, and sanitizer designed for general household and light industrial cleaning. For use on walls, floors and any inanimate hard surfaces. When used as directed, SANI-KLEEN will also deodorize those areas which generally are hard to keep fresh smelling, such as garbage pails, sink tops, and bathroom areas which are prone to odors caused by the growth of some micro organisms. Effective against Staphylococcus aureus and Salmonella choleraesuis at 2 ounces per gallon. Also effective against pathogenic fungi, Trichophyton interdigitale, at this use dilution.

At 3 ounces per gallon, a hospital disinfecting claim against Pseudomonas aeruginosa can be made. Treated food contact surfaces must be pre-rinsed with potable water prior to reuse.

DANGER

KEEP OUT OF REACH OF

Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Protect eyes and skin when handling concentrate. Harmful if swallowed. Avoid contamination of food. Rinse empty container thoroughly with water and discard. Do not reuse.

FIRST AID

In case of contact immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. CALL A PHYSICIAN.
