RIGHT PANEL

DIRECTIONS

C-Z 44 Ceramic Tile Gloss is a concentrated non-abrasive cleaner and conditioner for use on ceramic tile, glass, stainless and chrome surfaces. Dilute 3 oz. of Ceramic Tile Gloss with 1 quart of water. Apply to surface with a sponge. Allow to stand for about one minute. Rinse with clear water. Wipe dry. For cleaning of tile grout on walls or floors..use same dilution. Apply to surface with a sponge. Scrub with a bristle brush. Rinse with clear water. Wipe dry. Y This enables imbedded soils to be easily removed and cleans grout more rapidly. Do not use on porcelain finishes.

WARNING:

May cause burns -- avoid contact with eyes and mucous membranes and prolonged contact with skin.

FIRST AID: For eyes, wash with water 15 minutes. If swallowed, give two glasses of milk and water. Call physician immediately.

LEFT PANEL

C-Z CERAMIC TILE GLOSS restores a clean new look to all ceramic tile bathrooms and shower stalls. Enhances the original finish to tile surfaces. Independent laboratory tests reveal conclusive proof that C-Z 44 Ceramic Tile Gloss helps destroy odor causing bacteria, fungi and mildew usually present in warm, humid areas. In addition, it removes unsightly lime deposits, water spots, soap film and whitens grout wherever ceramic tile is used; on walls, floors, etc. C-Z 44 Ceramic Tile Gloss helps to keep all bathrooms and shower stalls sanitary clean so as to meet the necessary standards required in hospitals, nursing homes, schools, hotels and other public institutions.
