

When C-Z AQUACIDE is used as directed, it will kill and prevent development of Chlorella pyrenoidosa (green), Phormidium inundatum (black algae), Phormidium retzii (Square D algae), Lyngba versicolor (blue-green) and other swimming pool algae.

C-Z AQUACIDE is compatible with most commonly used swimming pool chemicals, but should not be mixed with soap or other cleaners, or pre-mixed with other water treating chemicals. C-Z AQUACIDE works best when added by itself directly to pool water. C-Z AQUACIDE at use dilution is non corrosive to inanimate surfaces.

DIRECTIONS FOR USE

Initial Dose: 1 gallon C-Z AQUACIDE to 50,000 gallons of water.

Maintenance Dose: 1 quart C-Z AQUACIDE to 50,000 gallons of water.

Initial dose is used when filling pool at beginning of swimming season. If pool has visible algae growth, treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or re-appear, repeat this treatment procedure as necessary. When pool is free of visible algae, use the recommended maintenance dose.

Maintenance dose should be added at 3-5 day intervals, if high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

If make up water is added at the rate of more than 10% per week of pool capacity, add 1 quart of C-Z AQUACIDE for each 10,000 gallons of fresh make up water added per week.

When swimming season is over, add 1 gallon of C-Z AQUACIDE to 50,000 gallons of water in treating water left in pool. This dose helps provide a measure of control of algae growth during the winter months. This treatment will also help the servicing of the pool before it is returned to use the following season.

Rinse empty container thoroughly with water and discard it.

C-Z AQUACIDE #529

CONCENTRATED SWIMMING POOL ALGAECIDE KEEPS POOL WATER CLEAR AND FREE OF VISIBLE ALGAE CONTROLS ALGAE SLIMES

ACTIVE INGREDIENTS:

n-Alkyl (60% C₁₄, 30% C₁₆, 5% C₁₂, 5% C₁₈)
dimethyl benzyl ammonium chlorides 5%

n-Alkyl (68% C₁₂, 32% C₁₄)
dimethyl ethylbenzyl ammonium chlorides 5%

INERT INGREDIENTS: 90%

EPA Reg. No. 2620-57

100%

Keep Out of Reach of Children.

DANGER:

Corrosive. May cause eye damage. Causes skin irritation. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

FIRST AID:

This product is toxic to fish. Do not let large treated effluent into lakes, streams or ponds. In case of contact immediately flush with plenty of water for at least 15 minutes. For eyes call a physician. If swallowed and wash out mouth with water before more is swallowed. Drink promptly a large quantity of water, egg whites, or other dilution of the water, not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

**NOTE TO:
PHYSICIAN:**

Probable mucous damage may contribute the use of gastric lavage. Measures against respiratory shock, respiratory depression and convulsions may be needed.
