TACLOR ®
FOR CHLORINATING
WATER SYSTEMS

100---25 Grain Tablets
Calcium Hypochlorite 70%
Inert Ingredients 30%

(triangle logo)
EVERPURE, INC. (outline lettering)
2100 Clearwater Drive
Oak Brook, Illinois 60521

Manufacturers

~~POISON-WARNING: Keep out of reach of children.~~
See antidote statement and other required warning
statement on the back panel. Mix only with water.
May cause fire if contaminated.

Made in U.S.A.

SIDE PANEL:

Because TACLOR ® contains more than 10% available
chlorine, it is required by federal law to be
labeled POISON. However, disinfection of water
with these tablets as directed is typical of
accepted practice and may be employed with safety.

REAR PANEL:

WARNING: Strong oxidant. Keep away from
combustible organic materials to avoid fire.
Prevent any burning material such as a lighted
cigarette from falling into product. Drench
fires with water. Avoid contact with skin and
eyes. Flush spilled product with water. Keep
in cool, dry place in original container. Al-
ways replace cap.

ANTIDOTE: External---flood with water for 15
minutes. Internal---drink large quantities
of water or milk. Follow with milk of magnesia,
vegetable oil, or beaten eggs. Eyes---wash eyes
with water for 15 minutes. Call Physician Immedi-
ately.

USDA Reg. No. XXXX-XXX

SIDE PANEL:

DIRECTIONS FOR USE

For water disinfection and protection from contamination, add enough tablets when filling tank to make a 2.0 to 10.0 ppm* free chlorine residual in the water. Wait at least 2 minutes before using. For palatable, chlorine-free fine filtered water, pass the super-chlorinated water through an EVERPURE® Water Purifier.

Each thoroughly dissolved TACLOR® tablet doses 2.0 ppm* chlorine in 100 gallons water. Test for free residual with #667 Test Kit.

* (ppm = parts chlorine per million parts of water).
