DIRECTIONS

Do not use with soap or synthetic detergent. Avoid contamination of food. Scrape utensils and empty glasses before washing. For Sanitizing Eating and Cooking utensils in Restaurants, Soda Fountains, Taverns, etc.

- 1 Utensils must be thoroughly washed in a hot detergent solution which is kept reasonably clean (First compartment).
- 2 Utensils must be then rinsed free of such solution (Second compartment).
- 3 Utensils must be then immersed in a clean sanitizing solution for at least 1 1/2 minutes. This solution is to be maintained at the proper concentration at least 200 ppm quaternary and minimum temperature of 75 F (water hardness not to exceed 500 ppm at pH of 5.0 or higher) (Third compartment).

Allow to air dry. Do not use. Towel 2 Sanitabs per 3 gallons of water make a 200 ppm solution. Sanitabs should be diluted in warm or hot water. Stir solutions well before using.
